5. DISPLAY AND PLACEMENT

To ensure the best display and preservation of your figure:

- Place the figure on a stable, flat surface to prevent accidental falls.

- Avoid areas with direct sunlight, as UV exposure can fade colors over time.
- Keep away from heat sources, such as radiators or direct lighting, which can deform plastic.
- Consider a display case to protect against dust and environmental factors.

6. MAINTENANCE AND CARE

Proper care will help maintain the figure's condition:

- **Dusting:** Regularly dust the figure with a soft, dry brush or a microfiber cloth. For intricate areas, use compressed air or a soft art brush.
- **Cleaning:** If necessary, gently wipe the figure with a slightly damp cloth using only water. Avoid using cleaning agents, solvents, or abrasive materials, as these can damage the paint or finish.
- **Handling:** Always handle the figure by its base or main body. Avoid touching painted surfaces directly with bare hands for extended periods to prevent oil transfer.

7. TROUBLESHOOTING

Issue	Possible Cause	Solution
Figure does not fit onto the base.	Misalignment or slight manufacturing variation.	Ensure the peg and hole are correctly aligned. Apply gentle, even pressure. If still difficult, try warming the figure's foot slightly with a hairdryer on a low setting (briefly, from a distance) to make the plastic more pliable, then attempt to attach.
Accessory (sword) is loose.	Slight variation in hand grip or accessory size.	Adjust the position of the accessory. If it remains loose, a tiny amount of museum putty or a similar non-damaging adhesive can be used to secure it temporarily.
Figure appears dusty or dirty.	Accumulation of dust or surface grime.	Refer to Section 6, "Maintenance and Care," for cleaning instructions.
