If your specific Daikin model is not listed, or if you are unsure about compatibility, please refer to the original remote control's model number or contact the manufacturer for assistance.

6. Maintenance

6.1 Cleaning the Remote Control

To clean the remote control, wipe it gently with a soft, dry cloth. Do not use liquid cleaners, abrasive materials, or chemical solvents, as these may damage the surface or internal components.

6.2 Battery Replacement

Replace batteries when the remote control's response becomes sluggish or the display dims. Always replace both batteries simultaneously with new AAA batteries. Do not mix old and new batteries, or different types of batteries. Dispose of used batteries according to local regulations.

6.3 Storage

If the remote control will not be used for an extended period, remove the batteries to prevent leakage and potential damage to the device.

7. Troubleshooting

- **Remote not responding:**
  - Ensure batteries are inserted correctly with the correct polarity.
  - Replace old batteries with new ones.
  - Ensure there are no obstructions between the remote control and the air conditioner unit's receiver.
  - Confirm the remote is pointed directly at the air conditioner unit.
- **Limited functionality:**
  - Verify that your specific Daikin model is listed as compatible. Some advanced functions might vary slightly between original remotes and replacements.
  - Ensure the air conditioner unit itself is functioning correctly.
- **Display is dim or blank:**
  - Replace batteries immediately.

If troubleshooting steps do not resolve the issue, please contact the product manufacturer for further assistance.
