Faryuan 046JR-WH

Faryuan 3-in-1 Tower Fan User Manual

Model: 046JR-WH

Brand: Faryuan

INTRODUCTION

This manual provides detailed instructions for the safe and efficient operation of your Faryuan 3-in-1 Tower Fan. This versatile appliance combines cooling, heating, and air purification functionalities to enhance your indoor comfort.

Key Features:

- 3-in-1 Functionality: Cooling, Heating, and HEPA Air Purification.
- Bladeless Design: Enhanced safety for families and easy cleaning.
- 80° Oscillation: Wide area coverage for optimal air distribution.
- Intelligent LED Display & Dual Control: Remote and touch controls for convenience.
- HEPA Filter: Captures 99.97% of 0.3 micron particles, including dust, pollen, and dander.
- Mute Mode & Timer: Ultra-quiet operation and up to 8-hour timer for comfortable sleep.
- Safety Features: Automatic power-off protection upon tipping.

SETUP

Unpacking and Placement:

1. Carefully remove the tower fan from its packaging. The unit comes pre-assembled.
2. Place the fan on a firm, level surface indoors. Ensure it is away from curtains or objects that could obstruct airflow.
3. Connect the power cord to a suitable AC power outlet.

Remote Control Setup:

- The remote control requires AAA batteries (not included). Insert batteries according to polarity markings.

Filter Installation/Check:

The HEPA filter is typically pre-installed. To check or replace the filter:

1. Ensure the fan is powered off and unplugged.
2. Gently twist the top section of the fan counter-clockwise to unlock and lift it off.
3. Remove the old filter (if replacing) and insert the new HEPA filter, ensuring it sits correctly.
4. Align the top section and twist clockwise to secure it.

OPERATING INSTRUCTIONS

Your Faryuan 3-in-1 Tower Fan can be controlled using the touch panel on the unit or the provided remote control.

Power On/Off:

- Press the Power button () on the unit or remote to turn the fan on or off.

Mode Selection (Cooling/Heating):

- The fan offers both cooling and heating modes.
- In Cooling Mode, select from 1-8 fan speeds.
- In Heating Mode, select from H1-H3 heat levels, with temperature ranging from 68°F-99°F.
- Use the mode button on the remote or touch panel to switch between cooling and heating.

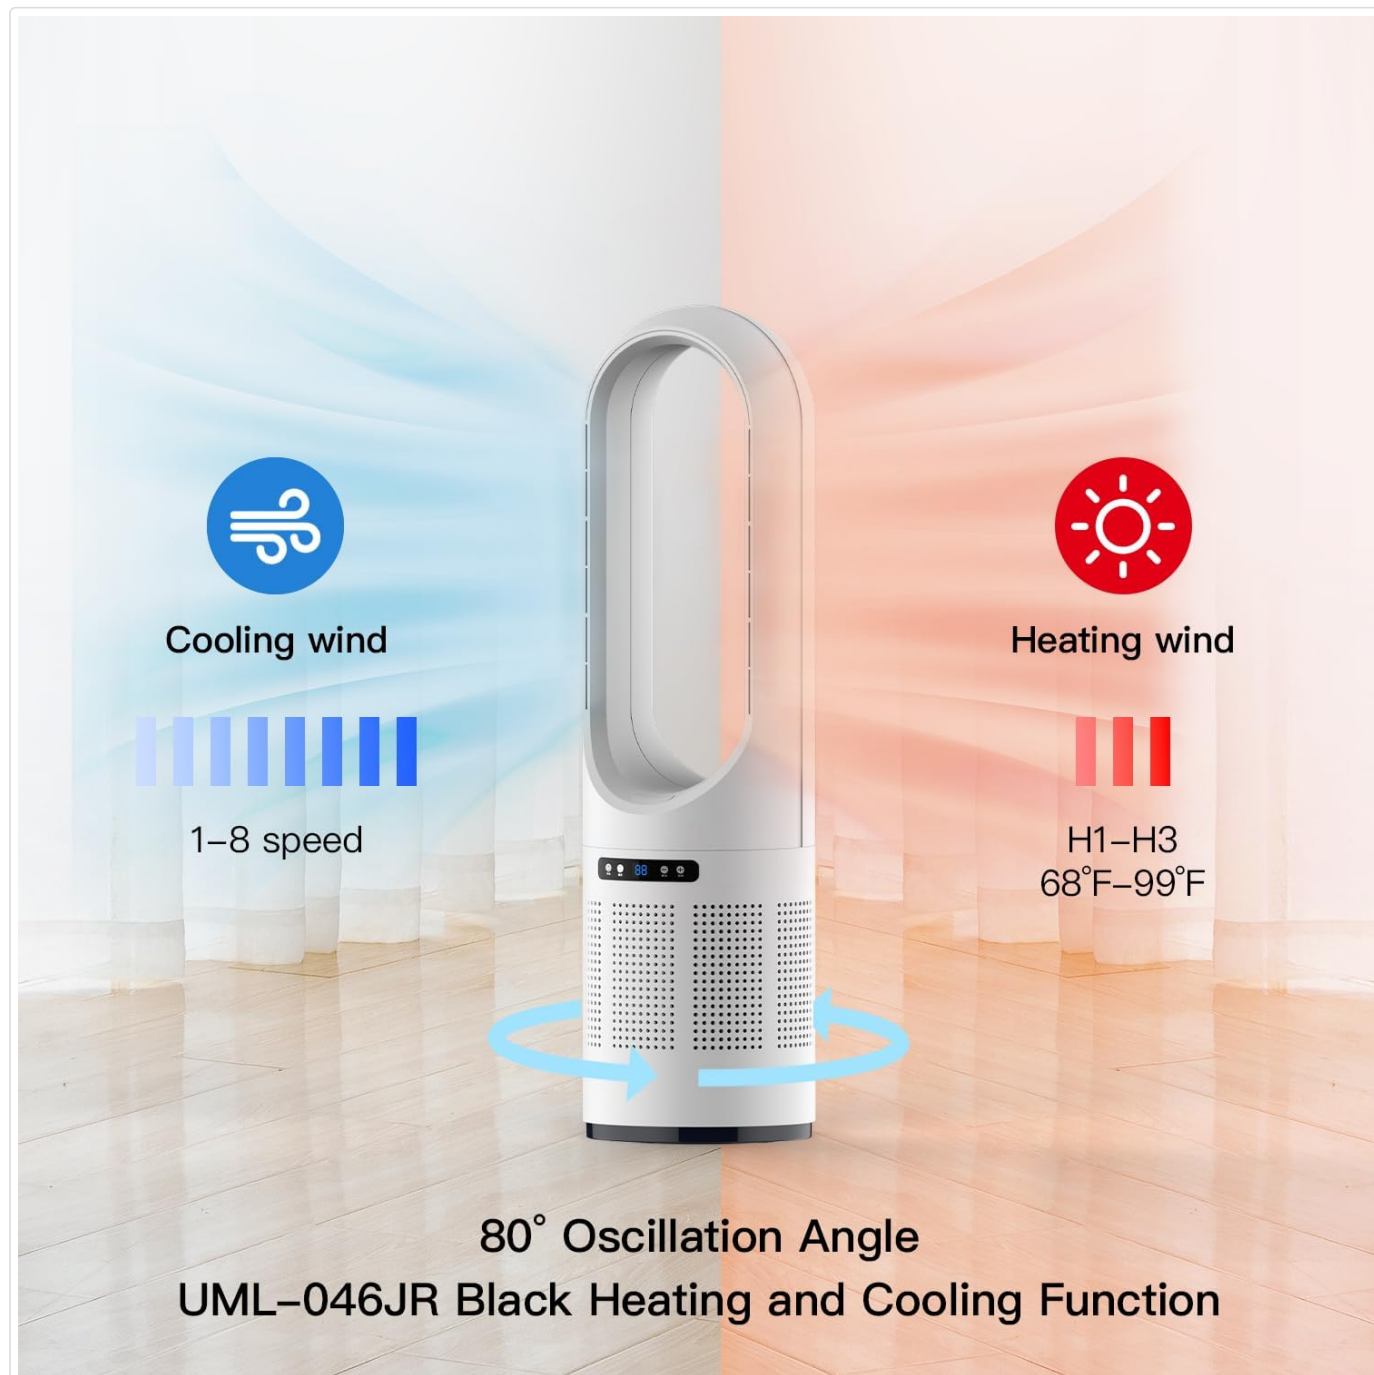

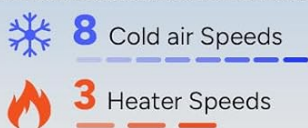

Image: The Faryuan 3-in-1 Tower Fan illustrating its dual functionality, emitting cooling wind (1-8 speeds) on one side and heating wind (H1-H3, 68°F-99°F) on the other, with an 80° oscillation angle.

Oscillation:

- Press the Oscillation button () to activate or deactivate the 90° oscillating function. This distributes air across a wider area.

MAINTENANCE

Cleaning the Unit:

- Always unplug the fan before cleaning.
- Wipe the exterior surfaces with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- The bladeless design makes the air outlet easy to clean with a soft cloth or brush.

HEPA Filter Replacement:

The HEPA filter should be replaced periodically, depending on usage and air quality. Follow these steps:

1. Ensure the fan is powered off and unplugged.
2. Gently twist the top section of the fan counter-clockwise to unlock and lift it off.
3. Remove the used HEPA filter.
4. Insert a new, genuine Faryuan HEPA filter, ensuring it is seated correctly.
5. Align the top section with the base and twist clockwise until it locks securely into place.

Video: This video demonstrates the ease of filter replacement for the Faryuan Bladeless fan. It shows how to twist off the top, remove the old filter, and insert a new one, then reattach the top securely.

TROUBLESHOOTING

If you encounter any issues with your Faryuan 3-in-1 Tower Fan, please refer to the following common solutions:

Problem	Possible Cause	Solution
Fan does not turn on.	Not plugged in; power outlet malfunction; unit tipped over.	Ensure power cord is securely plugged in. Check power outlet. If tipped, stand upright and restart.
Weak airflow.	Obstructed air intake/outlet; dirty HEPA filter.	Clear any obstructions. Clean or replace the HEPA filter.
No heat in heating mode.	Heating element malfunction; incorrect temperature setting.	Verify temperature setting. If issue persists, contact customer support.
Remote control not working.	Dead batteries; obstruction between remote and unit.	Replace remote batteries. Ensure clear line of sight to the unit's sensor.

For issues not listed here, please contact Faryuan Customer Support.
