MAHANCRIIS FTTHR3001 Fish Tank Stand

MAHANCRIIS 30 Gallon Fish Tank Stand Instruction Manual

Model: FTTHR3001 Fish Tank Stand

PRODUCT OVERVIEW

This manual provides detailed instructions for the assembly, operation, and maintenance of your MAHANCRIIS 30 Gallon Fish Tank Stand. Designed for durability and versatility, this stand features a heavy-duty metal frame and two tiers of storage, making it suitable for various aquatic setups or as a general storage rack.

Image: The MAHANCRIS 30 Gallon Fish Tank Stand, showcasing its two-tier design with a large fish tank on the top level and a smaller tank with books on the lower shelf. A wooden crate is placed on the floor beneath the stand.

Key Features:

- **Fits 30 Gallon Aquarium:** Supports tanks up to 30 gallons with a top load capacity of 600 lb. The second shelf supports up to 150 lb.
- **Maximizes Space:** 2-tier design for efficient vertical storage of tanks, food, tools, and accessories.
- **Sturdy Build:** Constructed from heavy-duty metal with a cross-frame and corner triangles for enhanced stability. Includes EVA pads to prevent slipping and protect the aquarium.
- **Versatile Functionality:** Can be used for fish tanks, reptile tanks, or as a general storage rack for various items in different rooms.
- **Easy Assembly:** Comes with clearly numbered parts, necessary tools, and a detailed manual for straightforward setup.

SETUP AND ASSEMBLY

The MAHANCRIS Fish Tank Stand is designed for easy assembly. Please follow the steps below carefully to ensure proper and safe construction.

Before You Begin:

- Unpack all components and verify against the parts list provided in the packaging.
- Ensure you have a clear, flat, and spacious area for assembly.
- Keep children and pets away from the assembly area.

Assembly Steps:

1. Identify all metal frame components. The stand features a robust cross-shaped metal frame for stability.
2. Attach the main vertical supports to the base frames using the provided hardware.
3. Secure the top cross-frame structure. This provides the primary support for your aquarium.
4. Install the middle shelf. This shelf is designed for additional storage or smaller tanks.
5. Ensure all screws are tightened securely.
6. Attach the EVA pads to the top surface of the stand to protect your aquarium and prevent slipping.
7. Adjust the four adjustable feet at the bottom of the stand to ensure it is level on any surface.

Robust Cross-Shaped Metal Frame

Delivers enhanced stability and superior weight capacity.

OPERATING INSTRUCTIONS

Once assembled, the MAHANCRISS Fish Tank Stand is ready for use. Follow these guidelines for optimal performance and safety.

- **Placement:** Position the stand on a flat, stable surface capable of supporting the combined weight of the stand, aquarium, water, and accessories.
- **Aquarium Placement:** Carefully place your 30-gallon aquarium on the top tier. Ensure it is centered and stable. The EVA pads on the top surface will help prevent movement.
- **Lower Shelf Use:** Utilize the middle shelf for smaller aquariums, terrariums, or for organizing fish food, cleaning supplies, and other aquatic accessories.
- **Weight Distribution:** Distribute weight evenly across both tiers. Do not exceed the maximum load capacities for each shelf.
- **Versatile Storage:** Beyond aquariums, this stand can function as a versatile storage rack for books, plants, printers, or other household items, adapting to various room settings like studies, entryways, or living rooms.

MAINTENANCE

Proper maintenance will ensure the longevity and appearance of your MAHANCRIS Fish Tank Stand.

- **Cleaning:** The stand is designed to be easy to clean. Wipe down surfaces with a soft, damp cloth. Avoid abrasive cleaners that may damage the finish.
- **Spills:** Promptly wipe up any water spills from the aquarium to prevent moisture damage to the shelves.
- **EVA Pads:** Periodically check the EVA pads on the top surface to ensure they are securely in place and providing adequate protection and anti-slip functionality.
- **Structural Integrity:** Regularly inspect all bolts and connections to ensure they remain tight. Re-tighten if necessary to maintain stability.

TROUBLESHOOTING

If you encounter any issues with your MAHANCRIS Fish Tank Stand, please refer to the following common solutions.

| Problem | Possible Cause | Solution |
|--------------------------------|----------------------------------|---|
| Stand is wobbly/unstable | Uneven floor; loose connections. | Adjust the leveling feet at the bottom of the stand. Check and tighten all assembly bolts. |
| Aquarium slides on top surface | EVA pads missing or dislodged. | Ensure EVA pads are properly installed on the top frame. Contact support if pads are missing. |

| Problem | Possible Cause | Solution |
|-----------------------------------|---|--|
| Difficulty during assembly | Incorrect part orientation; missing hardware. | Refer to the detailed assembly manual and diagrams. Verify all parts are correctly oriented before tightening. Contact support for missing parts. |
| Stand appears to sag under weight | Exceeding weight capacity; improper assembly. | Ensure the total weight on the stand does not exceed 600 lbs for the top tier and 150 lbs for the second shelf. Re-check assembly for any loose connections. |
