3. PRODUCT OVERVIEW

Familiarize yourself with the alarm clock's components and controls.

3.1 Front Display and Silicone Case

The front display shows time, date, and various emoji expressions indicating the clock's status. The silicone case is removable for cleaning or preference.

The alarm clock's display changes expressions based on its state (e.g., looking around, blinking, sleeping, alarm ringing).

3.2 Back Controls and Ports

The back of the alarm clock features various buttons and switches for setting time, alarms, and modes,

along with the USB-C charging port.

4. SETUP

4.1 Initial Charging

Before first use, fully charge the alarm clock using the provided USB-C cable. Connect the cable to the USB-C port on the side of the clock and to a standard USB power adapter (not included) or computer USB port. A full charge can last up to 160 days on the lowest alarm setting.

4.2 Setting Time and Date

Refer to the detailed instructions in the included user manual for specific steps on setting the current time, date (year/month/day), and choosing between 12H/24H/DST formats. These settings are typically adjusted using buttons on the back of the device.

5. OPERATING INSTRUCTIONS

5.1 Setting Alarms (Dual Alarms)

The clock supports two independent alarms. Use the dedicated alarm setting buttons/switches on the back to set Alarm 1 and Alarm 2. You can configure each alarm for different schedules:

- **MON-FRI:** Weekday alarm
- **SAT-SUN:** Weekend alarm
- **MON-SUN:** Everyday alarm

Illustration of the dual alarm clock functionality with different working modes.

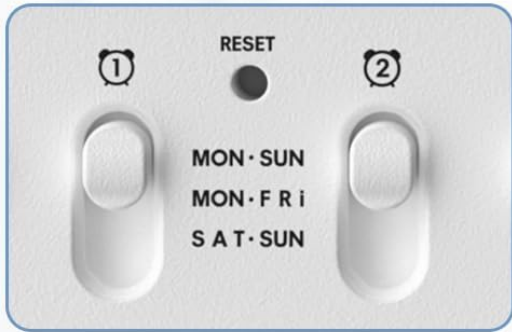

5.2 Wake-up Modes and Vibration Levels

Choose from three wake-up modes and three vibration intensity levels to suit your preference:

- **Wake-up Modes:** Single Buzzer, Single Shaker, Buzzer + Shaker
- **Vibration Levels:** High, Medium, Low

Dual Alarm 3 Working Modes

Reduce the hassle of repeated settings

Month / Day / Year Display Function

5.4 Snooze Function

When the alarm sounds, press the top Snooze button to activate a 9-minute snooze period. The alarm will sound again after 9 minutes.

9 Minutes Snooze

Get an extra 9 minutes sleep by pressing the top Snooze button

A user activating the snooze function on the alarm clock.

5.5 Child Lock

To prevent accidental changes to settings, activate the child lock feature. Refer to the specific instructions in your manual for engaging and disengaging the child lock.

Close-up of the child lock switch, designed to prevent unintended adjustments.

6. MAINTENANCE

6.1 Cleaning

To clean the alarm clock, gently wipe the surface with a soft, dry cloth. For the silicone case, it can be removed and washed with mild soap and water, then air-dried completely before reattaching. Do not use abrasive cleaners or immerse the main unit in water.

6.2 Battery Care

The alarm clock features a built-in rechargeable battery. To prolong battery life:

- Avoid fully discharging the battery frequently.
- Charge the device regularly, even if not in constant use.
- Store the device in a cool, dry place when not in use for extended periods.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Clock not turning on/display blank	Low battery or power off.	Charge the alarm clock using the USB-C cable. Ensure the power switch is in the ON position.
Alarm not sounding/vibrating	Alarm not set, disabled, or volume/vibration level too low.	Verify alarm settings (time, days, ON/OFF status). Check wake-up mode and adjust volume/vibration intensity.
Incorrect time/date display	Time/date not set correctly or DST setting incorrect.	Re-enter time and date settings. Adjust 12H/24H/DST format as needed.
Buttons unresponsive	Child lock is active.	Deactivate the child lock switch on the back of the device.
