2. SAFETY INFORMATION

To ensure safe operation and prevent damage, please observe the following precautions:

- **Power Supply:** Use only the specified power adapter for the electric piano. Ensure the voltage matches your local power supply.
- **Water and Moisture:** Keep both instruments away from water, moisture, and high humidity. Do not operate with wet hands.
- **Heat Sources:** Avoid placing instruments near heat sources such as radiators, stoves, or direct sunlight.
- **Ventilation:** Ensure adequate ventilation for the electric piano to prevent overheating. Do not block ventilation openings.
- **Cleaning:** Disconnect the electric piano from the power supply before cleaning. Use a soft, dry cloth.
- **Children:** Adult supervision is recommended when children are using the instruments. Small parts may pose a choking hazard.
- **Handling:** Handle both instruments with care. Avoid dropping or subjecting them to strong impacts.

5.2. Acoustic Guitar Operation

1. **Holding the Guitar:** Sit comfortably and rest the guitar on your lap, or stand with the strap over your shoulder.
2. **Strumming:** Use a pick or your fingers to strum the strings over the soundhole.
3. **Fretting Notes:** Press down on the strings behind the frets with your left-hand fingers to produce different notes.
4. **Using the Capo:** A capo can be placed across the fretboard to raise the pitch of all strings simultaneously, allowing you to play in different keys without changing chord shapes.

6. MAINTENANCE

- **Cleaning:** Use a soft, dry, lint-free cloth to wipe down both instruments. For the keyboard, ensure it is unplugged. Avoid abrasive cleaners or solvents.
- **String Care (Guitar):** Wipe guitar strings after each use to remove oils and dirt, which can prolong string

life. Replace strings when they become dull, corroded, or break.

- **Storage:** Store instruments in a cool, dry place away from extreme temperatures and humidity. Use the gig bag for the guitar to protect it from dust and minor impacts.
- **Transportation:** When transporting, ensure instruments are securely packed to prevent damage.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
No sound from keyboard	Power off; Volume too low; Headphones connected; External speakers off.	Ensure power is on; Increase volume; Disconnect headphones; Turn on external speakers.
Keys not lighting up	Not in teaching/demo mode; Feature disabled.	Select a teaching mode or demo song; Check keyboard settings to enable lighted keys.
Guitar sounds out of tune	Strings stretched; Tuning pegs slipped.	Retune the guitar using the digital tuner. New strings may require frequent tuning initially.
Buzzing sound from guitar strings	Improper fretting; Action too low; Worn frets.	Ensure fingers are pressing firmly behind the fret; If persistent, consult a guitar technician.
