3. SETUP AND ASSEMBLY

The Ckzbx Tall Narrow Storage Cabinet is designed for straightforward assembly. An instruction manual is included with the product to guide you through each step. Only a screwdriver is required for assembly.

Important Safety Information: Anti-Tipping Device

To ensure stability and prevent potential injury from tipping, it is crucial to install the included anti-tipping device. Securely fix the cabinet to a wall using the provided hardware as detailed in the assembly instructions. This step is essential for the safe use of the cabinet, especially in households with children or pets.

4. USAGE AND OPERATION

Adjusting Shelves

The cabinet features adjustable shelves. To reposition a shelf, carefully lift it from its current supports and place it onto the desired shelf pegs. Ensure all four corners of the shelf are securely seated on the pegs before placing items on it.

Door Operation

The cabinet doors utilize a magnetic closure system. Gently push the doors to close them; the magnets will hold them securely in place. Avoid forcing the doors to prevent damage to the magnetic mechanism.

Recommended Placement

This cabinet is suitable for various indoor environments, including bathrooms, bedrooms, dining rooms, home offices, and kitchens. Its narrow design is particularly effective in utilizing limited spaces.

5. MAINTENANCE

The cabinet's electrostatic powder-coated steel surface is designed for easy maintenance.

- **Cleaning:** Wipe the surfaces with a soft, damp cloth. For stubborn marks, a mild, non-abrasive cleaner can be used. Dry immediately with a clean cloth to prevent water spots.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, strong solvents, or harsh chemicals, as these can damage the finish.
- **Regular Inspection:** Periodically check all screws and connections to ensure they remain tight, especially for the anti-tipping device.

6. TROUBLESHOOTING

Cabinet Instability / Tipping Concern

If the cabinet feels unstable, ensure the anti-tipping device is correctly installed and securely anchored to a wall. Verify that the cabinet is placed on a level surface. Uneven weight distribution can also affect stability; redistribute items evenly across shelves.

Doors Not Closing Properly

If the cabinet doors do not close smoothly or align correctly, check the tightness of all screws, particularly those connecting the hinges and the magnetic closure mechanism. Refer to the assembly instructions to ensure all components are correctly aligned and fastened.
