U`King ZQ01087

U`King 36LED 72W UV Stage Black Lights Instruction Manual

Model: ZQ01087

Brand: U`King

1. PRODUCT OVERVIEW

The U`King 36LED 72W UV Stage Black Lights are designed to produce powerful ultraviolet light (395-400nm, UVA level) for various applications, including stage lighting, parties, and special effects. These lights feature 36 high-quality LED lamp beads and offer multiple control options, including remote control and DMX.

Figure 1: Overview of the U`King 36LED UV Black Lights (8-pack).

Key Features:

- **High Power UV Output:** Equipped with 36 premium ultraviolet LEDs, providing a wavelength of 395-400nm (UVA level).
- **Flexible Control:** Can be operated via the included remote control or any standard DMX controller.
- **Multiple Operating Modes:** Includes Strobe, Static Color, Fade, Auto, DMX, and Sound Activated modes. Speed control is available for dynamic effects.
- **Adjustable Mounting:** Features 360° adjustable brackets for versatile positioning.
- **Durable Construction:** Made from aluminum and PVC for robust performance.

2. WHAT'S IN THE BOX

Upon unpacking your U`King 36LED UV Stage Black Lights, please ensure all components are present and in good condition:

- U`King 36LED UV Black Light unit(s)

- Remote Control(s)
- Adjustable Mounting Bracket(s)
- User Manual (this document)

3. SETUP INSTRUCTIONS

Follow these steps to set up your U'King 36LED UV Stage Black Light:

1. **Unpack:** Carefully remove all components from the packaging.
2. **Attach Mounting Bracket:** The adjustable bracket allows for floor mounting or hanging. Secure the bracket to the light unit using the provided screws and knobs. Ensure it is tightened securely.
3. **Positioning:** Place the light on a stable surface or mount it in the desired location. The 360° adjustable bracket allows you to direct the light beam precisely.
4. **Power Connection:** Connect the power cord to the light unit and then to a standard electrical outlet.

4. OPERATING INSTRUCTIONS

The U'King UV Black Light can be operated using the onboard control panel or the included remote control.

4.1 Control Panel Operation

The control panel on the back of the unit features a digital display and several buttons (MENU, UP, DOWN, ENTER) for navigating settings and modes.

Figure 4: Rear control panel and connections.

- **Power On/Off:** Use the red switch located on the back of the unit to turn the light on or off.
- **Mode Selection:** Press the MENU button to cycle through the available operating modes (Strobe, Static Color, Fade, Auto, DMX, Sound Activated).
- **Adjust Settings:** Use the UP and DOWN buttons to adjust parameters within each mode (e.g., speed, brightness). Press ENTER to confirm selections.

4.2 Remote Control Operation

The included remote control provides convenient access to all functions and modes.

REMOTE CONTROL

Description of remote control

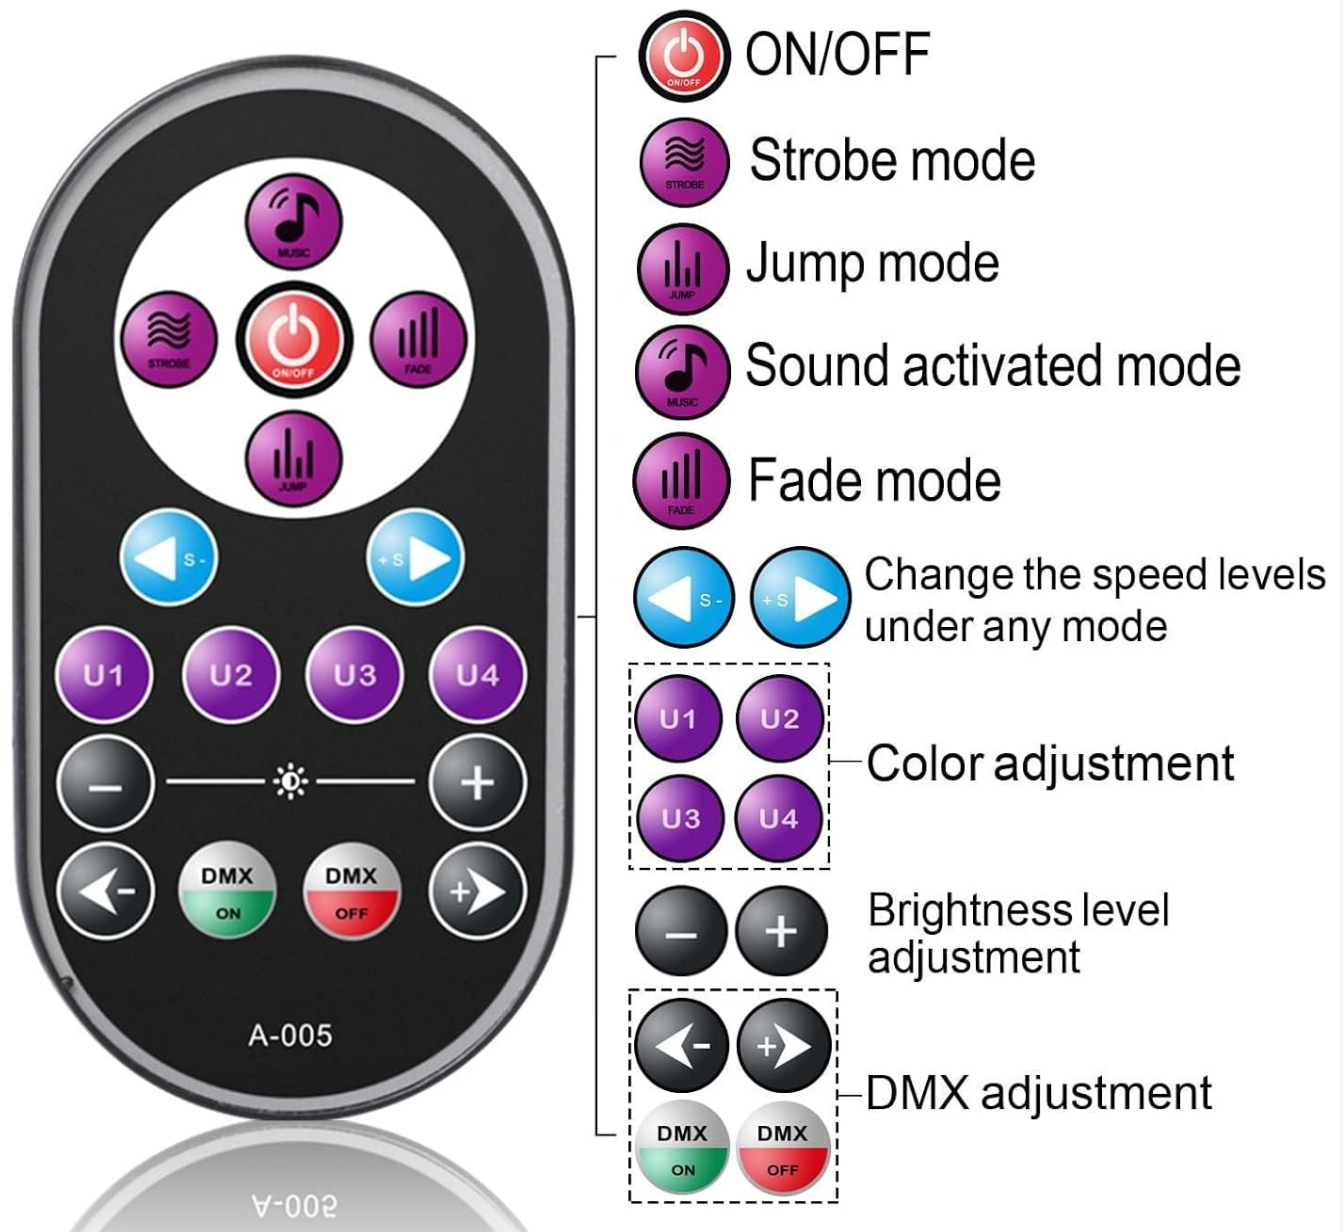

Figure 5: Remote control functions.

- **ON/OFF**: Power button to turn the light on or off.
- **Mode Buttons**: Dedicated buttons for Strobe, Jump, Sound Activated, and Fade modes.
- **Speed Adjustment**: Use the left and right arrow buttons to change the speed levels within dynamic modes.
- **Color Adjustment (U1-U4)**: Buttons U1, U2, U3, U4 may offer preset color or intensity adjustments.
- **Brightness Adjustment**: Use the '+' and '-' buttons to increase or decrease brightness.
- **DMX Adjustment**: DMX ON/OFF buttons for enabling or disabling DMX control.

4.3 DMX Control

For advanced control, connect the light to a DMX controller using standard DMX cables. Refer to your DMX

controller's manual for specific setup and programming instructions. The light supports DMX512 protocol.

5. MAINTENANCE

To ensure the longevity and optimal performance of your U`King UV Black Lights, follow these maintenance guidelines:

- **Cleaning:** Regularly clean the lens and exterior of the light with a soft, dry cloth. Avoid using abrasive cleaners or solvents that could damage the finish or optical components.
- **Ventilation:** Ensure that the ventilation openings on the unit are not obstructed to prevent overheating.
- **Storage:** When not in use, store the lights in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Cable Inspection:** Periodically inspect power and DMX cables for any signs of wear or damage. Replace damaged cables immediately.

6. TROUBLESHOOTING

If you encounter issues with your U`King UV Black Light, refer to the following common troubleshooting steps:

- **Light Does Not Turn On:**
 - Check if the power cord is securely connected to both the light and the power outlet.
 - Ensure the power switch on the back of the unit is in the 'ON' position.
 - Verify that the power outlet is functional.
- **Remote Control Not Responding:**
 - Check the battery in the remote control and replace it if necessary.
 - Ensure there are no obstructions between the remote and the light's IR receiver.
- **DMX Control Issues:**
 - Verify DMX cables are correctly connected (DMX IN to DMX OUT).
 - Check the DMX address settings on the light and your DMX controller.
 - Ensure the DMX ON setting is activated on the light.
- **Light Flickers or Behaves Erratically:**
 - Check for loose power connections.
 - If using DMX, ensure proper termination of the DMX chain.
 - Reduce the number of lights in a DMX chain if experiencing signal degradation.

If the issue persists after attempting these steps, please contact customer support.

7. SPECIFICATIONS

Detailed technical specifications for the U`King 36LED 72W UV Stage Black Light (Model ZQ01087):

Feature	Specification
Model Number	ZQ01087
Light Source Type	Light Emitting Diode (LED)
Number of Light Sources	36 LEDs
Wavelength	395-400nm (UVA Level)
Wattage	72 Watts
Beam Angle	25 Degrees
Material	Aluminum, Polyvinyl Chloride (PVC)
Finish Type	Aluminum
Power Source	Corded Electric
Mounting Type	Floor Mount (with adjustable bracket)
Product Dimensions	1"L x 1"W x 1"H (approximate, as per provided data)
