1. SAFETY INFORMATION

For safe use, please follow all installation instructions provided. Ensure the desk is stable and do not overload the desktop or monitor stand beyond the recommended weight capacity. Keep children and pets away from the desk during height adjustments. Avoid placing liquids directly on the control panel.

2. PRODUCT OVERVIEW

The TRIUMPHKEY Electric Height Adjustable Desk is designed to provide a versatile and ergonomic workspace. It features an electric lifting system, a spacious desktop, and an integrated monitor stand to promote healthier working postures.

Key Features:

- **Ergonomic Monitor Support:** An additional monitor stand helps position your screen at a comfortable height, reducing neck strain and saving desk space.
- **Durable Materials:** Constructed with a high-quality steel frame and a spacious, waterproof, and scratch-resistant desktop. The T-shaped leg design enhances stability.
- **Electric Height Adjustment with Memory:** Smoothly adjust the desk height between 73cm and 118cm. Two memory buttons allow you to save and recall your preferred sitting and standing heights.
- **Versatile Use:** Suitable for various applications including gaming, computer work, studying, and office tasks, both at home and in professional environments.

3. SETUP AND ASSEMBLY

The TRIUMPHKEY desk is designed for straightforward assembly. Each part is numbered, and the package includes detailed installation instructions along with the necessary screwdriver. Follow the steps carefully to ensure correct assembly.

Assembly Notes:

- The desktop is composed of multiple panels joined together. Ensure these panels are aligned correctly during assembly to minimize gaps.
- Do not overtighten screws, especially for the monitor stand brackets, to prevent damage.
- It is recommended to have two people for assembly due to the weight of the components.

4. OPERATING INSTRUCTIONS

Height Adjustment:

1. **Manual Adjustment:** Use the **Up** (▲) and **Down** (▼) buttons on the control panel to raise or lower the desk to your desired height. The LED screen will display the current height.
2. **Memory Presets:** The desk features two memory buttons (1 and 2) to save your preferred heights. To save a height: adjust the desk to the desired position, then press and hold one of the memory buttons (1 or 2) until the LED screen flashes or beeps, indicating the height is saved. To recall a saved height, simply press the corresponding memory button (1 or 2) once.

The electric lifting system operates smoothly and quietly, with noise levels typically below 55dB, ensuring minimal disruption to your work environment.

Improve Sitting Posture, Healthy Office Style

5. MAINTENANCE

Cleaning:

- Wipe the desktop surface with a soft, damp cloth. The surface is waterproof and scratch-resistant, but avoid abrasive cleaners.
- For the steel frame and legs, use a dry or slightly damp cloth. Do not use harsh chemicals.

Regular Checks:

- Periodically check all screws and bolts to ensure they are tight. Retighten if necessary.
- Inspect power cables and connections for any signs of wear or damage.
- Ensure the desk legs are on a level surface to maintain stability during height adjustments. The rubberized protective layer on the legs helps prevent floor damage and ensures quiet movement.

6. TROUBLESHOOTING

Common Issues and Solutions:

- **Desk Not Moving:**
 - Check if the power cable is securely plugged into both the desk and the wall outlet.
 - Ensure there are no obstructions preventing the desk from moving up or down.
- **Desk Instability/Wobbling:**
 - Verify that all assembly screws are properly tightened.
 - Ensure the desk is placed on a flat, level surface. Adjust the leveling feet if necessary.
 - Avoid placing excessive weight unevenly on the desktop. The maximum weight capacity is 60kg.
- **Desktop Gaps/Unevenness:**
 - The desktop is made from multiple panels. While designed to fit snugly, minor gaps may be present. Ensure the panels were aligned as closely as possible during assembly.

- **Memory Presets Not Working:**
 - Ensure you are pressing and holding the memory button until the controller confirms the setting is saved (e.g., by flashing or beeping).
