SETUP INSTRUCTIONS

The Shure MV6 is designed for quick and easy setup, allowing you to start recording or streaming in minutes.

- 1. Assemble the Desktop Stand:** Attach the microphone to the included round base desktop stand. Ensure it is securely fastened to provide stability.
- 2. Connect to Your Device:** Use the provided 1m USB-C cable to connect the MV6 microphone to your PC or laptop. The microphone is plug-and-play, requiring no additional drivers for basic functionality.
- 3. Download MOTIV Mix App (Recommended):** For advanced control and audio customization, download the free Shure MOTIV Mix desktop application from the official Shure website. This software allows you to fine-tune settings such as gain, tone, and noise reduction.
- 4. Position the Microphone:** Place the microphone approximately 6-12 inches (15-30 cm) from your mouth for optimal sound capture and to minimize unwanted room reflections.

MV6 USB GAMING MICROPHONE

The Cheat Code To Game-Changing Audio

We've taken everything we know about dynamic vocal microphones and packed it into the MV6 to produce a USB microphone that is easy for anyone to use, right out of the box. With design & technology borrowed from our iconic SM7 and MV7 range of microphones, the MV6 has been designed to enable gamers and streamers to take their first step into Shure dynamic vocal microphones and sound like a pro.

OPERATING INSTRUCTIONS

Key Controls and Features:

- **Tap-to-Mute Button:** Located on the microphone body, this capacitive touch button allows for instant muting and unmuting of your audio. The button illuminates green when unmuted and amber when muted.
- **3.5mm Headphone Output:** Connect your headphones to this jack for real-time, zero-latency monitoring of your voice. This allows you to hear exactly how you sound during streaming or recording.
- **USB-C Output:** Provides a direct digital connection to your computer or compatible mobile device for high-quality audio transmission.

Using the MOTIV Mix App:

The MOTIV Mix app provides comprehensive control over your MV6 microphone's settings:

- **Multi-channel Mixer:** Control up to five channels of audio for recording, monitoring, or livestreaming.
- **Audio Recording:** Record your podcast or livestream for up to 8 hours of mixed output.

- **Soundcheck:** Optimize microphone gain settings with the Soundcheck feature.
- **Microphone DSP Configuration:** Adjust digital signal processing (DSP) features such as:
 - **Auto Level Mode:** Intelligently adjusts microphone gain in real-time based on your distance and volume.
 - **Real-time Denoiser:** Filters out background distractions like keyboard clicks and fan hum.
 - **Digital Popper Stopper:** Effectively eliminates harsh plosive sounds without needing a physical pop filter.
 - **Tone Control:** Adjust the tonal characteristics of your voice (e.g., natural, dark, bright).
