3. SETUP AND ASSEMBLY

Assembly of the SANODESK Electric Standing Desk is required. It is recommended that **2 people** are involved in the assembly process due to the weight of the components. A drill may be required for certain steps, but is not included.

Assembly Steps:

1. Unpack all components and verify against the included parts list.
2. Assemble the industrial-grade steel frame according to the detailed installation manual. Pay attention to embedded screw hole locations for proper alignment.
3. Attach the whole-piece desktop securely to the assembled frame.
4. Install the desk clamp power strip to the desired location on the desk surface using the edge mount bracket.
5. Mount the under-desk cable management tray to organize power strips and cables.
6. Connect all necessary power cables for the electric lifting mechanism and power strip.

4. OPERATING INSTRUCTIONS

The SANODESK Electric Standing Desk features an intuitive digital control panel for easy height adjustment.

Height Adjustment:

- Use the **Up (▲)** and **Down (▼)** arrow buttons on the control panel to manually adjust the desk height. The current height will be displayed on the digital screen.
- The desk can be lowered to a minimum height of 28.1 inches and raised to a maximum height of 45.7 inches.

Memory Presets:

The control panel includes 4 programmable memory presets (1, 2, 3, 4) to save your preferred sitting and standing heights.

1. Adjust the desk to your desired height using the Up/Down arrows.
2. Press the 'M' or 'Set' button (if available, otherwise hold the number button) followed by the desired number button

(1, 2, 3, or 4) to save the current height.

3. To recall a saved height, simply press the corresponding number button (1, 2, 3, or 4). The desk will automatically move to the saved position.

Using the Power Strip:

- Plug your electronic devices into the 3 AC outlets or use the 2 USB-A ports for charging.
- Ensure the power strip is securely clamped and connected to a wall outlet.

5. MAINTENANCE

To ensure the longevity and optimal performance of your SANODESK Electric Standing Desk, follow these maintenance guidelines:

- **Cleaning:** Wipe the desk surface and frame with a dry cloth. Avoid using liquids or harsh chemical cleaners that may damage the finish.
- **Protection:** Avoid placing sharp objects directly on the desktop to prevent scratches.
- **Weight Capacity:** Do not exceed the maximum weight capacity of 176 lbs (80 kg) on the desktop.
- **Cable Management:** Periodically check and re-organize cables in the management tray to prevent tangles and ensure smooth operation during height adjustments.

6. TROUBLESHOOTING

If you encounter any issues with your SANODESK Electric Standing Desk, please refer to the following common troubleshooting tips:

- **Desk Not Moving:** Ensure all power cables are securely plugged into the desk and the wall outlet. Check if the power strip is receiving power.
- **Uneven Movement:** Verify that the desk is placed on a flat, stable surface. Check for any obstructions under the desk that might impede movement.
- **Control Panel Not Responding:** Unplug the desk from the power source for 10-15 seconds, then plug it back in to reset the system.
- **Unusual Noises:** While the desk operates quietly (under 50 dB), any unusual loud noises may indicate an issue. Discontinue use and contact customer support.
