

## Panasonic ES-L570W

# Panasonic Lamdash PRO 5-Blade Electric Shaver ES-L570W-S User Manual

Model: ES-L570W | Brand: Panasonic

## 1. INTRODUCTION AND OVERVIEW

---

Thank you for purchasing the Panasonic Lamdash PRO 5-Blade Electric Shaver, model ES-L570W-S. This advanced shaver is designed to provide a close and gentle shave, adapting to your beard density for optimal performance. Please read this manual thoroughly before use to ensure safe and correct operation.

## 2. SAFETY INFORMATION

---

To ensure safe operation and prevent injury or damage, please observe the following precautions:

- Do not disassemble, repair, or modify the shaver or charging unit.
- Keep the shaver and charging unit away from water sources unless specifically designed for wet use. This model is bath shave compatible, but always ensure the charging unit remains dry.
- Do not use if the power cord or plug is damaged.
- Keep out of reach of children.
- Use only the provided AC adapter and cleaning solution.
- Avoid dropping the shaver or subjecting it to strong impacts.

### 3. PACKAGE CONTENTS

---

Verify that all items are included in your package:

- Panasonic Lamdash PRO 5-Blade Electric Shaver (ES-L570W-S)
- Automatic Cleaning and Charging System
- Pouch
- Dedicated Cleaning Agent (1 pc, ES-4L)
- AC Adapter
- Dedicated Oil (Shell Ongina Oil 32)
- Cleaning Brush

### 4. SETUP

---

#### 4.1 Initial Charging

Before first use, fully charge the shaver. The automatic cleaning and charging system provides convenient charging.

1. Connect the AC adapter to the automatic cleaning and charging system.
2. Plug the AC adapter into a power outlet.
3. Place the shaver into the cleaning and charging system. Ensure it is seated correctly.
4. The charging indicator will illuminate. A full charge typically takes about 1 hour.

## 4.2 Attaching/Detaching the Outer Foil Frame

Ensure the outer foil frame is securely attached before use. To detach for cleaning or replacement, press the release buttons on the sides of the shaver head and lift off.

## 5. OPERATING INSTRUCTIONS

### 5.1 Shaving with Lamdash AI+

The Lamdash AI+ feature automatically adjusts shaving power based on your beard density, providing a powerful shave where needed and a gentle shave on thinner areas.

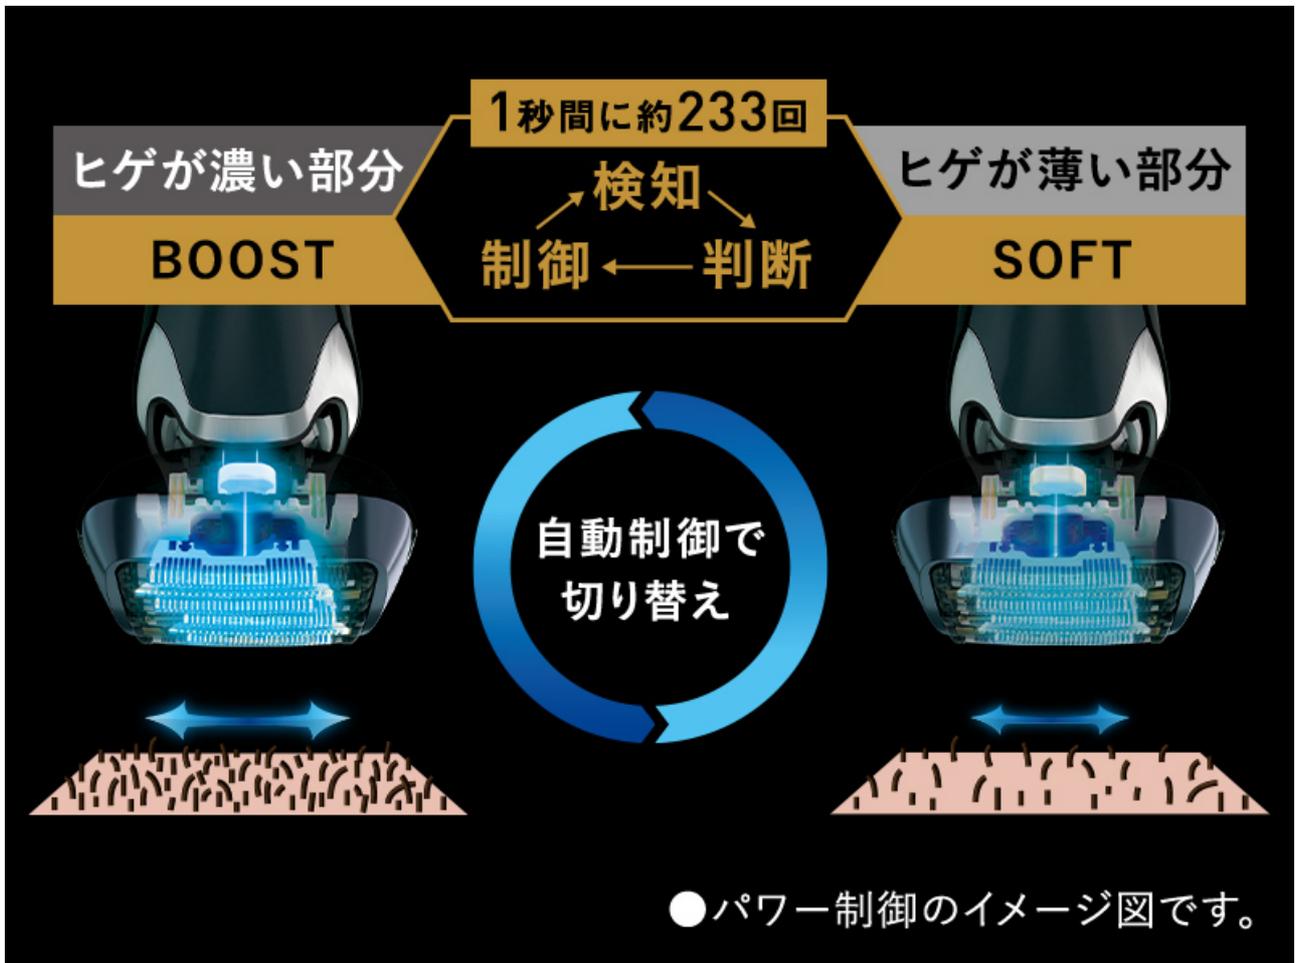

Image: Internal view of the Lamdash AI+ circuit board, which detects beard conditions approximately 233 times per second to control shaving power.

## 5.2 The 5-Blade System and Linear Motor

This shaver features a new 5-blade system combined with a high-speed linear motor, delivering approximately 14,000 strokes per minute, resulting in about 70,000 cutting actions per minute for a deep shave even on thick beards.

## 5.3 Close-Contact 5D Head

The flexible 5D head moves in five directions, conforming closely to the contours of your face, including under the chin, to reduce skin irritation and ensure a smooth shave.

#### 5.4 Wet and Dry Shaving

This shaver is designed for both wet and dry shaving. You can use it for a quick dry shave or with shaving foam/gel for a refreshing wet shave in the bath or shower.

## 6. MAINTENANCE

### 6.1 Automatic Cleaning and Charging System

The included automatic cleaning and charging system simplifies daily maintenance:

1. After shaving, rinse the shaver head under running water to remove most hair clippings.
2. Place the shaver into the automatic cleaning and charging system.
3. Add the dedicated cleaning agent to the system's reservoir.
4. Press the start button. The system will automatically wash, heat-dry, and charge the shaver, ensuring over 99% sterilization.

### 6.2 Manual Cleaning

For manual cleaning, detach the outer foil frame and inner blades. Use the provided cleaning brush to remove hair clippings. Rinse the parts under running water. Allow all parts to air dry completely before reassembling. Apply a drop of dedicated oil to the blades periodically to maintain performance.

## 7. TROUBLESHOOTING

---

If you encounter any issues with your shaver, please refer to the following common solutions:

- **Shaver does not turn on:** Ensure the shaver is fully charged. If using the automatic cleaning and charging system, check that the AC adapter is properly connected to a power source.
- **Reduced shaving performance:** Clean the shaver thoroughly. Replace the outer foil and inner blades if they are worn or damaged (typically recommended every 1-2 years, depending on usage).
- **Unusual noise:** Clean the shaver head. If the noise persists, contact customer support.
- **Charging issues:** Ensure the shaver is correctly seated in the charging system. Check for any debris obstructing the charging contacts.

For persistent problems, please contact Panasonic customer support.

## 9. WARRANTY AND SUPPORT

---

### 9.1 Manufacturer's Warranty

This Panasonic product comes with a 12-month manufacturer's warranty from the date of purchase. Please retain your proof of purchase for warranty claims. The warranty covers defects in materials and workmanship under normal use. It does not cover damage caused by misuse, accidents, unauthorized repairs, or normal wear and tear.

### 9.2 Customer Support

For technical assistance, warranty service, or to purchase replacement parts and accessories, please contact Panasonic customer support. Refer to the official Panasonic website or your product packaging for the most current contact information in your region.

You can also visit the official Panasonic website for FAQs and additional product information [www.panasonic.com](http://www.panasonic.com)
