eclife 24-Inch Bathroom Vanity with Sink Combo Instruction Manual

Model: THKFSF022

Introduction

Thank you for choosing the eclife 24-inch Bathroom Vanity with Sink Combo. This manual provides essential information for the safe assembly, operation, and maintenance of your new vanity. Please read these instructions carefully before beginning installation and retain them for future reference.

Safety Information

- Always use appropriate safety gear, including gloves and eye protection, during assembly.
- Ensure all connections for plumbing are secure and watertight to prevent leaks.
- Do not overload shelves or drawers.
- Keep small parts away from children to avoid choking hazards.
- If you are unsure about any step, consult a qualified professional.

Package Contents

Your eclife bathroom vanity is shipped in two separate packages. Please verify that all components listed below are present before beginning assembly.

Image: Package contents diagram. Package A contains the main cabinet, hardware package, and instruction manual. Package B contains the sink, faucet, pop-up drain, and instruction manual.

Package A:

- 1 x Main Cabinet
- 1 x Hardware Package
- 1 x Instruction Manual

Package B:

- 1 x Sink (Ceramic)
- 1 x Faucet
- 1 x Pop Up Drain
- 1 x Instruction Manual

Note: Efficient packaging may lead to separate deliveries for these packages. Delivery dates may vary.

Setup and Assembly

This vanity requires self-assembly. Clear instructions and numbered parts are provided to ensure a straightforward assembly process. Please follow the detailed instruction manual included in the packages.

Before Assembly:

- **Measure Your Space:** The vanity features a raised arch feet design which makes the bottom wider than the top. Ensure your installation area accommodates the dimensions: 18.3"D x 25.7"W x 33.5"H.
- **Unpack Carefully:** Lay out all parts on a soft, clean surface to prevent scratches.
- **Identify Components:** Match all parts with the provided parts list in the instruction manual.

Image: Vanity dimensions. Overall dimensions are 18.3"D x 25.7"W x 33.5"H. The sink measures 19.3"x10.8"x4.7". The bottom base is wider than the cabinet top.

Assembly Steps (General Guidance):

1. Assemble the main cabinet structure according to the numbered steps.
2. Install the soft-closing hinges onto the cabinet doors.
3. Attach the metal handles to the drawer and doors.
4. Place the ceramic sink onto the cabinet.
5. Install the faucet and pop-up drain according to their respective instructions.
6. Connect the plumbing lines to the faucet and drain. Ensure all connections are tight to prevent leaks.

Operating Instructions

Your eclife bathroom vanity is designed for ease of use and durability.

Doors and Drawers:

- The cabinet doors are equipped with soft-closing hinges, allowing them to close gently and quietly, preventing slamming and extending product life.
- The smooth-gliding drawer provides quick access to stored items.

Image: Soft close hinges and adjustable shelf. Arrows indicate the soft-closing mechanism and the height adjustment for the shelf.

Adjustable Shelf:

- The interior shelf is adjustable to 3 different levels, allowing you to customize storage space for various daily items. To adjust, carefully remove the shelf, reposition the shelf pins to the desired height, and reinsert the shelf.

Image: Spacious storage space. The open cabinet door shows the interior storage with an adjustable shelf, suitable for various bathroom essentials.

Faucet:

- Operate the faucet by lifting the handle for water flow and rotating it for temperature control (hot/cold).

Maintenance

Proper care will ensure the longevity and appearance of your vanity.

Cleaning the Sink:

- The ceramic sink has a smooth surface that is resistant to water stains and easy to clean. Use a soft cloth with mild soap and water. Avoid abrasive cleaners or harsh chemicals that could damage the finish.

Cleaning the Cabinet:

- The painted surface of the cabinet can be cleaned with a soft, damp cloth. Wipe dry immediately to prevent water spots or damage to the finish.
- Avoid prolonged exposure to moisture. Promptly wipe up any spills.

General Care:

- Regularly check all plumbing connections for any signs of leaks.
- Inspect hinges and drawer slides periodically to ensure smooth operation.

Troubleshooting

Problem	Possible Cause	Solution
Water Leakage	Loose plumbing connections.	Check and tighten all water supply lines and drain connections. Apply plumber's tape if necessary.
Cabinet Doors Not Closing Softly	Hinges require adjustment or are damaged.	Refer to the hinge adjustment instructions in the main manual. If damaged, contact support for replacement parts.
Drawer Sticks or is Difficult to Open/Close	Drawer slides are misaligned or obstructed.	Ensure the drawer is properly seated on its slides. Check for any obstructions within the drawer or on the slides.
Faucet Drips or Has Low Water Pressure	Aerator clogged, internal faucet issue, or water supply problem.	Unscrew and clean the faucet aerator. Check water supply valves are fully open. If issues persist, consult a plumber.
