Panasonic ES-L570D

Panasonic Lamdash PRO 5-Blade Electric Shaver ES-L570D-K Instruction Manual

Model: ES-L570D-K

1. INTRODUCTION

Thank you for purchasing the Panasonic Lamdash PRO 5-Blade Electric Shaver, model ES-L570D-K. This manual provides essential information for the safe and effective use of your new shaver. Please read these instructions thoroughly before use and retain them for future reference.

Figure 1: Panasonic Lamdash PRO 5-Blade Electric Shaver ES-L570D-K with automatic cleaning and charging station.

2. SAFETY INFORMATION

To reduce the risk of injury, electric shock, fire, or damage to the product, always observe the following safety precautions:

- This product requires charging with a power cord. Avoid charging the unit while it is in use or in contact with water.
- Exercise caution when replacing blades or cleaning the shaver.
- Do not disassemble, repair, or modify the product yourself. Contact authorized service personnel for repairs.
- Keep the shaver and its accessories out of reach of children.
- Do not use the product if the power cord or plug is damaged.

3. PRODUCT OVERVIEW AND FEATURES

The Panasonic Lamdash PRO 5-Blade Electric Shaver ES-L570D-K is designed for a close and gentle shave, incorporating advanced technologies:

3.1. Lamdash AI+ (Intelligent Shaving Sensor)

The Lamdash AI+ system automatically adjusts shaving power based on beard density. This ensures optimal performance for both thick and sparse beard areas, providing a consistent and comfortable shave.

3.2. New 5-Blade System with High-Speed Linear Motor

The shaver features a new 5-blade system combined with a high-speed linear motor, delivering approximately 14,000 strokes per minute, resulting in about 70,000 cutting actions per minute. This design ensures a thorough shave even for dense beards.

- **Two Under-Chin Trimmer Blades:** These blades are specifically designed to capture and cut long, unruly hairs, improving cutting efficiency by approximately 2.0 times compared to previous models.
- **Three Deep-Shaving Blades:** These blades provide a close shave, with an improved cutting efficiency per blade of approximately 50%.

3.3. Close-Contact 5D Head

The shaver's Close-Contact 5D head moves in multiple directions to closely follow the contours of your face, including complex areas like under the chin. This design distributes pressure evenly across the skin, reducing skin irritation by approximately 25% compared to 3-blade models.

3.4. Automatic Cleaning and Charging System

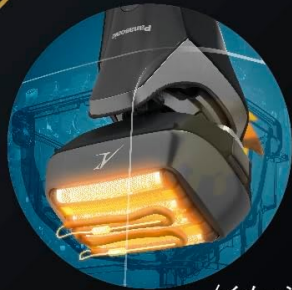

The included automatic cleaning and charging system simplifies daily maintenance. With a single switch, the system performs washing, heated drying, and charging, ensuring your shaver is clean, dry, and ready for its next use. It achieves over 99% sterilization.

4. PACKAGE CONTENTS

Verify that all the following items are included in your package:

- Panasonic Lamdash PRO 5-Blade Electric Shaver (ES-L570D-K)
- Automatic Cleaning and Charging System
- Pouch
- Dedicated Cleaning Detergent (1 piece, ES-4L)
- AC Adapter
- Dedicated Oil
- Cleaning Brush

5. SETUP

5.1. Initial Charging

1. Place the shaver into the automatic cleaning and charging system.

2. Connect the AC adapter to the charging system and then to a power outlet.
3. The charging indicator will illuminate, indicating that charging has begun. A full charge typically takes about 1 hour.
4. Once fully charged, the indicator will change or turn off (refer to the specific indicator behavior in the detailed manual).

5.2. Preparing the Cleaning System

1. Open the lid of the automatic cleaning and charging system.
2. Pour the dedicated cleaning detergent into the designated reservoir.
3. Add water up to the indicated fill line.
4. Close the lid securely.

6. OPERATING INSTRUCTIONS

6.1. Shaving

1. Press the power button to turn on the shaver.
2. Gently press the shaver head against your skin and move it slowly against the direction of beard growth.
3. Allow the 5D head to follow your facial contours naturally. The Lamdash AI+ will automatically adjust power.
4. For optimal results, ensure the blades are clean and well-oiled.
5. After shaving, press the power button to turn off the shaver.

6.2. Using the Automatic Cleaning and Charging System

1. After shaving, remove any large beard clippings from the shaver head using the cleaning brush.
2. Place the shaver into the automatic cleaning and charging system.
3. Press the start button on the cleaning system. The system will initiate a cleaning cycle, followed by heated drying and charging.
4. The process will complete automatically.

7. MAINTENANCE

7.1. Daily Cleaning (Manual)

1. Turn off the shaver and detach the outer foil frame.
2. Rinse the outer foil and inner blades under running water to remove beard clippings.
3. Use the cleaning brush to remove stubborn debris.
4. Shake off excess water and allow the parts to air dry completely before reassembling.

7.2. Oiling the Blades

Apply a small drop of dedicated oil to each inner blade once a week or as needed to maintain smooth operation and cutting efficiency.

7.3. Replacing Blades

For optimal shaving performance, it is recommended to replace the outer foil and inner blades periodically. Refer to the detailed manual for specific replacement intervals and instructions.

8. TROUBLESHOOTING

If you encounter issues with your shaver, please refer to the following common solutions:

- **Shaver does not turn on:** Ensure the shaver is fully charged. If using the automatic cleaning and charging system, verify it is properly connected to a power source.
- **Reduced shaving performance:** Clean the blades thoroughly. Consider replacing the outer foil and inner blades if they are worn.
- **Skin irritation:** Ensure the shaver head is clean. Apply less pressure during shaving. Allow the 5D head to glide naturally.
- **Automatic cleaning system not working:** Check if the detergent and water levels are sufficient. Ensure the shaver is correctly seated in the system.
- **Lamdash AI+ sensor not reacting:** The sensor may not react (i.e., the drive sound may not change) depending on beard density or beard clippings inside the shaver head. This is not a malfunction.

If the problem persists after attempting these solutions, please contact Panasonic customer support.

9. SPECIFICATIONS

Feature	Specification
Brand	Panasonic
Model Number	ES-L570D-K
Dimensions (Shaver body, excluding cap)	Height 18.0 × Width 7.2 × Depth 5.7 cm
Weight (Shaver body, excluding cap)	Approx. 215g (0.22 kg)
Head Type	Reciprocating, Close-Contact 5D Head (Fixed/Movable switching, Close-contact blade float mechanism)
Blade System	5-Blade System (Stainless Steel)
Motor	High-Speed Linear Motor (Approx. 14,000 strokes/minute)
Power Source	AC Corded (Rechargeable)
Charging System	Automatic Cleaning and Charging System / AC Adapter Charging
Charging Time	Approx. 1 hour for full charge
Color	Black
Recommended Use	Face

10. WARRANTY AND SUPPORT

This Panasonic product comes with a 12-month manufacturer's warranty from the date of purchase. Please retain your proof of purchase for warranty claims.

For technical support, service, or warranty inquiries, please contact your local Panasonic customer service center. Contact information can typically be found on the Panasonic official website or in the warranty card included with your product.

Do not attempt to repair the product yourself, as this may void the warranty and cause further damage.
