Joyreal High Contrast Baby Toys Instruction Manual

Brand: Joyreal | Model: 127 US

1. INTRODUCTION

The Joyreal High Contrast Baby Toys set is designed to stimulate visual, tactile, and auditory development in newborns and infants aged 0-12 months. This comprehensive set incorporates Montessori principles to encourage natural curiosity and brain development through engaging and safe play. It provides essential sensory experiences crucial for early childhood development.

2. PACKAGE CONTENTS

Your Joyreal High Contrast Baby Toys set includes the following items:

- 1 x Car Seat Toy (Lion spiral toy with hanging koala, mirror, and cloud attachments)
- 1 x Bear Rattle Toy
- 1 x Black and White Baby Soft Book
- 8 x High Contrast Baby Cards
- 1 x Storage Bag

3. SETUP AND ASSEMBLY

The Joyreal High Contrast Baby Toys are designed for immediate use with minimal setup.

3.1 Car Seat Toy

The car seat toy features a flexible spiral design. To attach, simply wrap the spiral around a car seat handle, stroller bar, crib rail, or baby play gym. Ensure it is securely fastened to prevent it from falling.

3.2 Black and White Baby Soft Book

The soft book can be unfolded and laid flat for tummy time. It also includes ties on the ends, allowing it to be securely attached to a crib rail or playpen for upright viewing.

3.3 High Contrast Baby Cards

The high contrast cards are designed for individual presentation. They can be held up for your baby to focus on during awake

times or placed within their line of sight during tummy time. They are bound together for easy handling.

4. OPERATING AND USAGE

Each toy in the Joyreal set offers unique sensory stimulation for your baby.

4.1 Car Seat Toy

Once attached, encourage your baby to reach for and interact with the hanging elements. The koala attachment produces a gentle rattle sound when shaken. The central mirror is designed to attract your baby's attention and promote self-recognition. The cloud attachment makes a 'BB' squeak sound when pressed. These features aid in developing auditory and visual tracking, as well as fine motor skills.

4.2 Bear Rattle Toy

This soft bear rattle is designed with an easy-to-grasp ring shape, suitable for small hands. Encourage your baby to hold, shake, and explore the rattle. The internal bell provides auditory stimulation, while the soft texture offers tactile feedback. It is suitable for babies from birth up to 12 months.

Baby Rattles 0-12 Months

4.3 Black and White Baby Soft Book

Place the soft book in front of your baby during tummy time or attach it to their crib. The high-contrast black and white patterns are specifically designed to capture a newborn's attention and aid in visual development. The integrated mirror promotes self-recognition and engagement.

4.4 High Contrast Baby Cards

These cards are essential for stimulating a newborn's developing vision. Present the cards one by one to your baby, allowing them to focus on the distinct black and white patterns. This practice helps improve their visual tracking and focus. As your baby grows, they will begin to distinguish more complex patterns and colors.

Stimulate Baby's Vision & Brain Development

Accompany baby from black and white to colorful

5. MAINTENANCE AND CARE

Proper care will ensure the longevity and hygiene of your Joyreal baby toys.

- **Cleaning:** All fabric toys in this set (car seat toy, bear rattle, soft book) are designed for easy cleaning. Hand wash with mild soap and lukewarm water. Gently squeeze out excess water and air dry completely. Do not bleach, iron, or tumble dry.
- **High Contrast Cards:** The high contrast cards can be wiped clean with a damp cloth and mild soap if necessary. Allow them to air dry.
- **Storage:** When not in use, store all toys in the provided storage bag to keep them clean, dust-free, and organized. Keep toys in a dry place away from direct sunlight.

6. TROUBLESHOOTING

If you encounter any issues with your Joyreal High Contrast Baby Toys, please refer to the following common solutions:

- **Toy not making sound:** For the bear rattle, ensure it is shaken adequately. For the cloud attachment on the car seat toy, press firmly on the cloud to activate the 'BB' sound. Ensure no fabric or debris is obstructing the sound mechanism.
- **Difficulty attaching spiral toy:** The spiral car seat toy is flexible. Ensure you are wrapping it securely around the bar or handle. It may require a few turns to achieve a stable attachment.
- **Toys appear dirty:** Refer to the 'Maintenance and Care' section for proper cleaning instructions.

7. SPECIFICATIONS

Product Specifications

Feature	Detail
Product Dimensions	10.24 x 2.95 x 8.27 inches
Item Weight	14 ounces
Item Model Number	127 US
Manufacturer Recommended Age	0 - 1 years
Manufacturer	Joyreal

8. SAFETY INFORMATION

Your child's safety is paramount. Please adhere to the following safety guidelines:

- Always supervise infants during play with these toys.
- Inspect all toys regularly for any signs of wear, tear, or damage. Discontinue use immediately if any part becomes loose, broken, or detached.
- Keep all packaging materials (plastic bags, ties, etc.) away from children to prevent choking or suffocation hazards.
- Ensure toys are clean before each use, especially if they have been dropped or come into contact with unsanitary surfaces.
- All materials used in these toys are non-toxic and odorless, designed to be safe for babies.

9. WARRANTY AND SUPPORT

Joyreal is committed to providing high-quality products. Specific warranty details for this product may vary by retailer and region. Please retain your proof of purchase for any warranty claims.

For product support, inquiries, or assistance, please contact Joyreal customer service directly through the retailer's platform where the product was purchased, or visit the official Joyreal brand store for more information: [Joyreal Brand Store](#).
