Bitvae Sanilux Hero White

Bitvae Toothbrush Cleaner & Holder Instruction Manual

Model: Sanilux Hero White

Brand: Bitvae

INTRODUCTION

Thank you for choosing the Bitvae Toothbrush Cleaner & Holder. This device is designed to enhance your oral hygiene by providing a clean and dry environment for your toothbrushes. Featuring automatic cleaning and air drying, an LED smart screen, and broad compatibility, it ensures your toothbrushes are always ready for use. Please read this manual thoroughly before operation to ensure proper use and maintenance.

KEY FEATURES

- **Cleaning and Air Drying:** Fully automatic 24-hour operation ensures toothbrushes dry completely after each use.
- **LED Smart Screen:** Displays battery status, cleaning progress, and air drying status at a glance.
- **Compatible with Most Toothbrushes:** Two separate slots accommodate manual, sonic, rotary, and most slim-handle brush head toothbrushes.
- **30-Day Battery Life:** Features Type C fast charging and an 1800mAh battery for extended use.
- **Easy to Install:** Mounts easily on smooth surfaces like walls or mirrors using strong adhesive strips.

Setup Guide

Package Contents

Before you begin, please ensure all items are present in the package:

- 1 x Bitvae Toothbrush Cleaner
- 1 x Wall Bracket
- 2 x Double Sided Strong Glue Strips
- 1 x USB Cable (Adaptor not Included)
- 1 x Instruction Manual

Mounting Instructions

The Bitvae Toothbrush Holder is designed for easy wall mounting on smooth surfaces. Follow these steps:

1. Clean the desired wall surface (e.g., tile, marble, mirror, glass) thoroughly to ensure it is dry and free of dust or grease.
2. Peel off the protective film from the two-sided strong glue strips and firmly attach them to the back of the wall bracket.
3. Press the wall bracket firmly onto the cleaned surface, ensuring good adhesion.
4. Insert the Bitvae Toothbrush Cleaner unit into the wall bracket from top to bottom until it clicks securely into place.

OPERATING INSTRUCTIONS

Power On/Off

Press and hold the power touch button on the LED smart screen for 2 seconds to power the device on or off.

Automatic Operation (Infrared Sensing)

The device features infrared sensing for convenient, touchless operation:

1. To open the lid, wave your hand within 10cm in front of the sensor light. The lid will silently and smoothly pivot open.

2. Place your toothbrush(es) into the designated slots. The device supports two toothbrushes.

3. Wave your hand in front of the sensor again to close the lid. The device will automatically begin a cleaning and air drying cycle.

LED Smart Screen Indicators

The intelligent LED display provides real-time information:

- **Cleaning Progress:** Displays a percentage countdown during the cleaning cycle.

- **Battery Display:** Shows the current battery level.

- **Air Drying Indication:** An icon indicates when the air drying function is active.

- **Cleaning Indication:** An icon indicates when the UV cleaning function is active.

Toothbrush Compatibility

The Bitvae Toothbrush Cleaner is compatible with most manual, sonic, and rotary toothbrushes, as well as most slim-handle brush head toothbrushes. It is designed with two separate slots to accommodate different types. Please note that large and wide brush heads may not fit.

MAINTENANCE

To ensure optimal performance and longevity of your Bitvae Toothbrush Cleaner & Holder, regular maintenance is recommended.

Cleaning the Unit

Wipe the exterior of the device with a soft, damp cloth. Do not use abrasive cleaners or immerse the unit in water. Ensure the charging port is dry before charging.

Automatic Cleaning and Air Drying

The device automatically performs UV cleaning and air drying cycles. No manual intervention is required for these functions. The dual UV light (UVA+UVC) ensures a deep clean, and the fresh air ventilation helps dry the brushes, preventing moisture buildup.

TROUBLESHOOTING

If you encounter any issues with your Bitvae Toothbrush Cleaner & Holder, please refer to the common solutions below:

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Device not turning on or unresponsive.	Low battery; System glitch.	Ensure the device is fully charged using a 5V-1A adapter. If unresponsive, perform a system restart by pressing down on the motion sensor area for three seconds.
Lid not opening/closing automatically.	Infrared sensor obstructed or dirty; System glitch.	Ensure the sensor area is clean and unobstructed. Try performing a system restart as described above.
Toothbrushes not drying completely.	Excess water on brush heads; Ventilation obstruction.	Shake off excess water from toothbrushes before placing them in the holder. Ensure the ventilation slots are not blocked.
Missing double-sided strong glue strips.	Packaging error.	Contact Bitvae customer support for assistance.
