Panasonic ES-L650U-K

Panasonic Lamdash PRO 6-Blade Electric Shaver ES-L650U-K Instruction Manual

Model: ES-L650U-K

INTRODUCTION

This manual provides detailed instructions for the safe and effective use of your Panasonic Lamdash PRO 6-Blade Electric Shaver, model ES-L650U-K. Please read this manual thoroughly before use and keep it for future reference.

SAFETY INFORMATION

Important Safety Precautions:

- Handle the shaver with care during use.
- Do not expose the shaver to water while it is charging.
- Clean the shaver properly after each use to prevent bacterial growth.

Failure to follow these instructions may result in injury or damage to the product.

PRODUCT OVERVIEW

The Panasonic Lamdash PRO ES-L650U-K is an advanced electric shaver designed for a close and comfortable shave. It features a 6-blade system, a high-speed linear motor, a flexible 5D head, and Lamdash AI+ Navi technology for optimized performance.

Key Features:

- Lamdash AI+ Navi:** Automatically adjusts power based on beard density, indicated by LED lights (BOOST for thick beards, SOFT for thin beards).
- New 6-Blade System:** Provides a deep shave even on thick beards with approximately 84,000 cutting actions per minute. Features new ultra-thin deep shaving blades for enhanced efficiency.
- Close-Fitting 5D Head:** Flexes in 5 directions to follow facial contours, reducing pressure on the skin by approximately 20% compared to 5-blade models.

- **High-Speed Linear Motor:** Delivers consistent power for a smooth shave.
- **USB Type-C Charging:** Convenient and versatile charging option.

Figure 1: Panasonic Lamdash PRO 6-Blade Electric Shaver ES-L650U-K. This image shows the main unit of the shaver in a craft black finish, highlighting its sleek design and the 6-blade head.

Figure 2: A man using the Panasonic Lamdash PRO shaver for daily shaving, demonstrating its ergonomic design and ease of use.

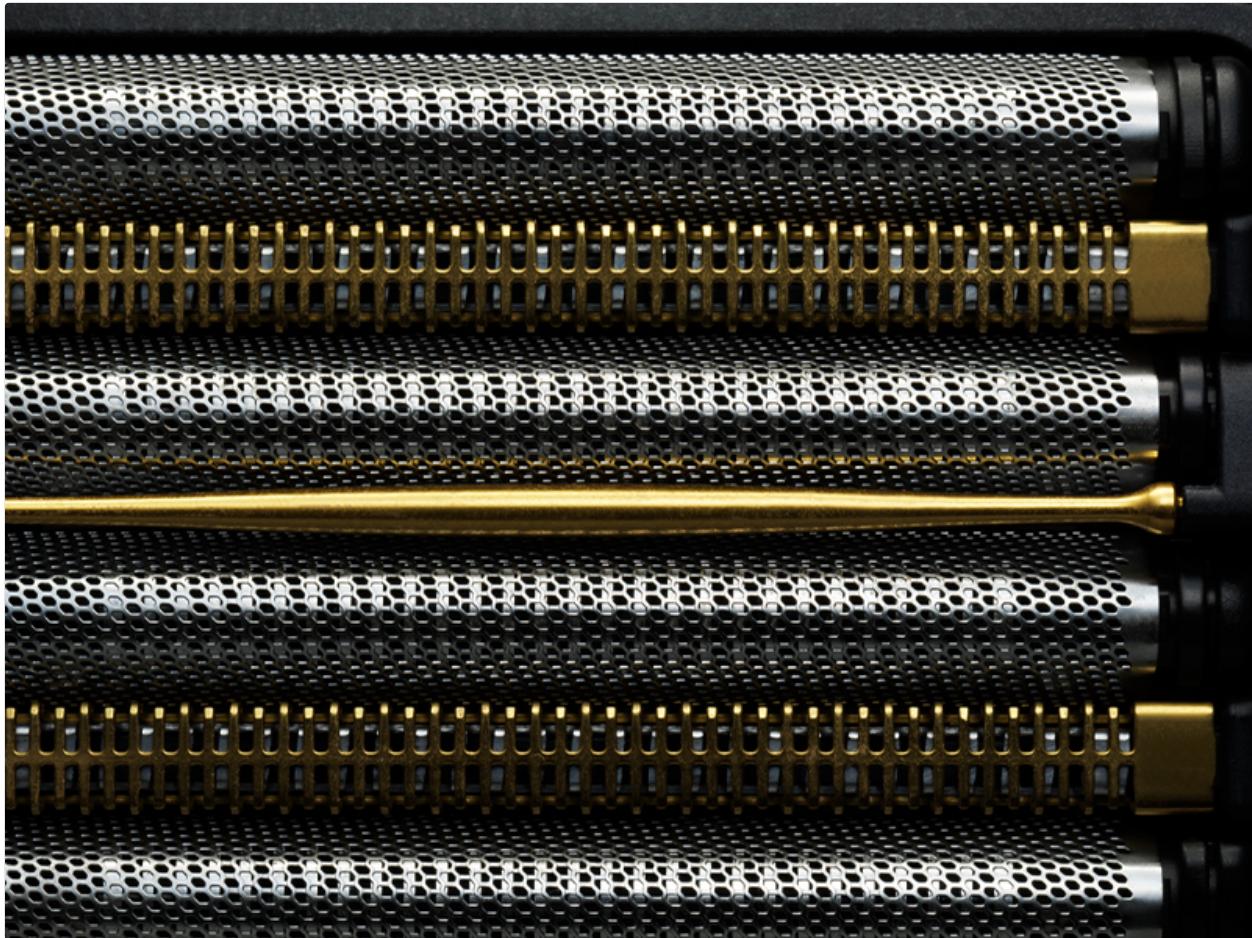

Figure 3: Illustration of the Lamdash AI+ Navi feature. The shaver automatically switches between BOOST mode (orange light for thick beards) and SOFT mode (white light for thin beards) based on beard density, providing optimal shaving power.

Figure 4: Close-up view of the 6-blade shaving system, featuring four ultra-thin deep shaving blades and two comb blades,

designed for efficient and close shaving.

Figure 5: Depiction of the 5D head's flexibility, showing how it pivots 360 degrees to closely follow the contours of the face and neck, ensuring a smooth shave with reduced skin irritation.

SETUP

Charging the Shaver

1. Ensure the shaver is turned off.
2. Connect the provided USB Type-C cable to the charging port on the shaver.
3. Connect the other end of the USB cable to a compatible USB power adapter (sold separately, Panasonic ES-RU1-01 recommended).
4. The charging indicator lights will illuminate to show charging status. A full charge takes approximately 2 hours.
5. Do not use the shaver while it is charging, especially in wet environments.

Figure 6: Close-up of the USB Type-C charging port on the shaver, illustrating how to connect the charging cable.

OPERATING INSTRUCTIONS

Shaving Procedure

1. Ensure the shaver is fully charged.
2. Press the power button to turn on the shaver. The Lamdash AI+ Navi will automatically detect your beard density and adjust power.
3. Gently press the shaver head against your skin and move it slowly against the direction of beard growth.
4. The 5D head will flex to follow your facial contours, ensuring optimal contact.
5. You can use the shaver for both dry and wet shaving, including with shaving foam or gel, and in the shower.
6. After shaving, press the power button to turn off the shaver.

Lamdash AI+ Navi Modes

- **BOOST Mode (Orange LED):** Activated automatically for areas with thick beard growth, providing powerful cutting.
- **SOFT Mode (White LED):** Activated automatically for areas with thin beard growth, providing a gentle shave.

MAINTENANCE

Cleaning the Shaver

Regular cleaning is essential to maintain shaver performance and hygiene.

1. After each use, turn off the shaver and remove the outer foil frame.
2. Rinse the shaver head and inner blades thoroughly under running water. For a more thorough clean, apply a small amount of hand soap to the blades and run the shaver for a few seconds before rinsing.
3. Use the provided cleaning brush to remove any stubborn hair clippings from the inner blades and shaver body.
4. Shake off excess water and allow the shaver to air dry completely before reattaching the outer foil frame and storing.

5. Apply a drop of dedicated shaver oil (included) to the outer foils and inner blades periodically to maintain smooth operation.

TROUBLESHOOTING

If you encounter any issues with your shaver, please refer to the following common solutions:

- **Shaver not turning on:** Ensure the shaver is fully charged. If the battery is depleted, charge it for at least 2 hours.
- **Reduced shaving performance:** Clean the shaver head and blades thoroughly. If performance does not improve, the blades or foils may need replacement.
- **Unusual noise during operation:** Ensure the shaver head is properly attached. If the noise persists, contact customer support.
- **Skin irritation:** Ensure you are using proper shaving technique. Clean the shaver regularly. If irritation continues, consult a dermatologist.

For more complex issues, please contact Panasonic customer support.

SPECIFICATIONS

Feature	Detail
Manufacturer	Panasonic
Model Number	ES-L650U-K
Color	Craft Black
Wattage	10 W
Other Features	Rechargeable
Power Source	Battery Powered
Number of Blades	6
Item Weight	0.22 kg (approx. 215g excluding cap)
Recommended Uses	Beard Shaving
Blade Material	Stainless Steel
Head Type	Reciprocating
