SADENICEL YC-C225-F/QB-BK-LP-1

SADENICEL Full Size Bed Frame Instruction Manual

Model: YC-C225-F/QB-BK-LP-1

1. INTRODUCTION

Thank you for choosing the SADENICEL Full Size Bed Frame. This manual provides detailed instructions for assembly, operation, maintenance, and troubleshooting to ensure safe and optimal use of your new bed frame. This bed frame features a sturdy metal support base, a headboard with integrated LED lighting, a USB charging station, and four storage drawers.

Image 1.1: SADENICEL Full Size Bed Frame with all features visible.

2. IMPORTANT SAFETY INFORMATION

WARNING: Failure to follow these safety instructions may result in injury or product damage.

- Do not load the bed frame with more than 800 pounds (362 kg).
- Exercise caution around sharp edges and metal legs during assembly and use.
- Always follow the assembly instructions carefully to ensure stability and prevent collapse.
- Keep children away from the bed frame during assembly.
- Ensure all connections are secure before use. Periodically check and tighten all bolts.

3. PACKAGE CONTENTS

Verify that all components listed below are present before beginning assembly. All parts and tools are marked with letters

or numbers for easy identification.

- Headboard (with integrated LED light strip and power strip)
- Footboard
- Metal Slats (10 pieces)
- Side Rails
- Support Legs (9 pieces)
- 4 Storage Drawers (with rolling wheels)
- Assembly Hardware (bolts, nuts, washers, Allen wrench)
- Remote Control for LED Lights
- Instruction Manual

4. SETUP AND ASSEMBLY

Assembly typically requires two people. Please refer to the included installation instruction manual for detailed step-by-step diagrams and specific hardware usage.

4.1 Preparation

1. Unpack all components and lay them out on a clean, soft surface (e.g., a carpet or blanket) to prevent scratches.
2. Identify all parts using the provided labels and the parts list in the separate instruction manual.
3. Ensure all necessary tools (usually an Allen wrench, provided) are at hand.

4.2 Assembly Steps (General Overview)

1. Attach the side rails to the headboard and footboard using the designated bolts and washers. Do not fully tighten bolts until all major components are connected.
2. Install the central support beam and support legs.
3. Place the metal slats onto the frame. The hook-and-loop closure system on the metal slats simplifies installation. Ensure the EVA silent sponge is correctly positioned on the slats to minimize noise.
4. Securely attach the four storage drawers to the underside of the bed frame. The drawers are designed with rolling wheels for easy movement.
5. Once all components are in place, fully tighten all bolts.
6. Connect the power cord for the LED lights and charging station to a wall outlet.

5. OPERATING INSTRUCTIONS

5.1 LED Headboard Lights

The headboard is equipped with RGB LED lights. Use the provided remote control to manage the lighting features:

- **Color Selection:** Choose from 12 distinct colors.
- **Brightness Adjustment:** Adjust brightness from 0% to 100%.
- **Scene Modes:** Select from 4 pre-programmed scene modes.
- **Timing Function:** Set a timer for the lights to turn off automatically.
- **Speed Adjustment:** Control the speed of dynamic lighting effects.

Image 5.2: Overview of LED light functions controlled by the remote.

5.2 USB Charging Station

The headboard includes a built-in power strip for convenient charging:

- 2 AC Outlets
- 1 USB Port (5V/2.4A)
- 1 Type-C Port (5V/3A)

This allows you to charge up to four devices simultaneously. The power cord is 6.5 feet long.

5.3 Storage Drawers

The bed frame includes four spacious sliding drawers for under-bed storage. These drawers are equipped with rolling wheels for easy access and smooth operation. They are suitable for organizing items such as sheets, quilts, pillows, and seasonal clothing.

6. MAINTENANCE

6.1 Cleaning

To clean the bed frame, wipe surfaces with a damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the finish.

6.2 General Care

- Periodically inspect all bolts and connections to ensure they remain tight. Tighten as necessary.
- Avoid dragging the bed frame when moving it; lift it to prevent damage to the frame and your flooring.
- Ensure the mattress is properly seated within the embedded design to prevent slipping.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed frame makes noise (squeaking)	Loose bolts; lack of lubrication; metal-on-metal friction.	Ensure all assembly bolts are tightened. Verify that the EVA silent sponge is correctly placed on the metal slats.
Mattress slides on the frame	Mattress not properly seated; embedded design not fully utilized.	Ensure the mattress is placed within the embedded frame design to prevent movement.
LED lights not working	Power connection issue; remote control battery dead; LED strip damage.	Check if the power cord is securely plugged into the wall outlet and the headboard. Replace remote control batteries. If issues persist, contact customer support.
Charging station not working	Power connection issue; device compatibility.	Verify the bed frame's power cord is plugged in. Test with different devices and cables.

Problem	Possible Cause	Solution
Drawers do not slide smoothly or are misaligned	Obstruction; improper assembly; damaged wheels.	Check for any items obstructing the drawer's path. Re-check drawer assembly according to the manual. Inspect wheels for damage.
