MERONTE MR2566

MORENTO MR2566 Air Purifier User Manual

Model: MR2566

Brand: MORENTO

INTRODUCTION

Thank you for choosing the MORENTO MR2566 Air Purifier. This compact and efficient device is designed to significantly improve the air quality in your home or office. Equipped with a powerful 3-stage filtration system, it effectively captures particles such as smoke, pet dander, pollen, and dust, while also neutralizing unpleasant odors. Its whisper-quiet operation and convenient features like a timer, night light, and aromatherapy function make it an ideal solution for creating a healthier and more comfortable living environment.

IMPORTANT SAFETY INSTRUCTIONS

Please read all instructions carefully before using the air purifier and retain them for future reference. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Always place the air purifier on a firm, level surface.
- Do not immerse the unit in water or other liquids.
- Keep the power cord away from heated surfaces.
- Unplug the air purifier before cleaning or performing any maintenance.
- Do not block air inlets or outlets.
- Use only official MORENTO replacement filters.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

PRODUCT OVERVIEW

The MORENTO MR2566 Air Purifier features a sleek design with a 360-degree air intake system, ensuring comprehensive air purification from all angles. Its advanced filtration system is key to its performance.

3-Stage HEPA Filtration System

The air purifier utilizes a powerful 3-stage filtration process to ensure optimal air quality:

- **Pre-Filter:** Traps large particles such as lint, fiber, and other dust.
- **HEPA Filter:** Captures pet dander, hair, and other particles as small as 0.3 microns, including pollen and smoke.
- **Activated Carbon Filter:** Absorbs smoke, VOCs, pet odors, and other unpleasant smells.

SETUP

Follow these steps for initial setup of your MORENTO MR2566 Air Purifier:

1. **Unpack the Unit:** Carefully remove the air purifier from its packaging.
2. **Access the Filter Compartment:** Turn the unit upside down. Turn the bottom cover counter-clockwise to unlock and remove it.
3. **Remove Packaging:** Take out the foam block and the plastic packaging from around the filter. The power adapter is typically placed in the middle hollow of the filter for shipping.
4. **Reinstall Filter:** Place the filter back into the unit.
5. **Secure Bottom Cover:** Place the bottom cover back on and turn it clockwise to lock it securely.
6. **Connect Power:** Plug the power adapter into the air purifier and then into a suitable power outlet.

Where Is The Adapter of Air Purifier

OPERATING INSTRUCTIONS

The control panel on the top of the unit allows for easy operation of all features.

Power On/Off

- Press the **Power Button** (*circle with vertical line*) to turn the air purifier on or off.

Fan Speed Control

- Press the **Fan Speed Button** (*fan icon*) to cycle through the available speeds:
- **1F (Low)**: For subtle air cleaning and quiet operation.
- **2F (High)**: For rapid purification.

- **Sleep Mode (22dB):** Provides ultra-quiet operation for a restful night's sleep.

Figure 5: Enjoy a peaceful night's sleep with the air purifier's quiet operation.

Timer Function

- Press the **Timer Button** (*clock icon*) to set the air purifier to turn off automatically after 2, 5, or 8 hours. This is ideal for use while sleeping or when away from home.

Night Light

- The air purifier features a built-in blue ambient light. In Sleep Mode, the light will automatically fade away after three seconds to ensure a light-free environment.

Aromatherapy

- To add essential oils, open the lid of the aroma box located on the top of the unit. Add 2-3 drops of your favorite essential oil (not included) to the aroma pad. Close the lid. The scent will blend with the purified air, filling the room with a pleasant aroma.

MAINTENANCE

Filter Replacement

For optimal performance, it is recommended to replace the filter every 3 to 6 months, or when the "Filter" button glows red (after approximately 2000 hours of use).

1. Turn off and unplug the air purifier.
2. Turn the unit upside down and unlock the bottom cover.
3. Remove the old filter.
4. Install a new official MORENTO filter (ASIN: B0DCY8L196 or ASIN: B0DD428PZG).
5. Secure the bottom cover.

6. Plug in the air purifier.
7. Long press the "Filter" button for 5 seconds to reset the filter life indicator. The red light will turn off.

Cleaning

- Wipe the exterior of the air purifier with a soft, dry cloth.
- Do not use abrasive cleaners or solvents.

TROUBLESHOOTING

If you encounter any issues with your air purifier, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Unit does not turn on	Not plugged in; Power outlet malfunction; Filter not installed correctly	Ensure power cord is securely plugged in; Try a different outlet; Reinstall filter correctly.
Airflow is weak	Filter is dirty; Air inlets/outlets blocked	Replace the filter; Ensure no obstructions are blocking air vents.
Unusual noise	Filter not installed correctly; Foreign object inside unit	Reinstall filter; Check for and remove any foreign objects.
Odor persists	Filter is saturated; Room size too large	Replace the filter; Consider using multiple units for larger spaces.
