## 3. SETUP AND INSTALLATION

Follow these steps to set up your VW Smart LED TV.

### 3.1. Choosing a Location

Select a stable, flat surface or a sturdy wall for mounting. Ensure adequate ventilation around the TV. Avoid direct sunlight or heat sources.

### 3.2. Assembling the Stand (Optional)

If using the table-top stand:

1. Carefully place the TV screen-down on a soft, clean surface to prevent scratches.
2. Attach the two stand legs to the designated slots at the bottom of the TV using the provided screws.
3. Ensure the stand is securely fastened before placing the TV upright.

### 3.3. Wall Mounting (Optional)

If wall mounting, use the included wall mount bracket. Professional installation is recommended for wall mounting to ensure safety and proper alignment.

### 3.4. Connecting Peripherals

Your TV offers multiple connectivity options:

- **HDMI Ports:** Connect Set-Top Box, Blu-Ray players, Gaming Consoles.
- **USB Ports:** Connect Hard Drives & other USB devices for media playback.
- **Wi-Fi:** For wireless internet connectivity.
- **LAN (Ethernet):** For wired internet connectivity.

### 3.5. Power Connection

Connect the power cable to the TV's power input and then plug it into a wall outlet. The TV will enter standby mode.

## 4. OPERATING YOUR TV

This section guides you through the basic operation of your VW Smart LED TV.

### 4.1. First-Time Setup Wizard

Upon first power-on, the TV will guide you through an initial setup wizard. This includes language selection, network connection (Wi-Fi or Ethernet), and channel scanning.

### 4.2. Smart Remote Control

The included smart remote provides easy navigation and dedicated keys for popular streaming services.

## 6. MAINTENANCE AND CARE

Proper care will extend the life of your TV and ensure optimal performance.

### 6.1. Cleaning the Screen

Gently wipe the screen with a soft, lint-free cloth. For stubborn marks, slightly dampen the cloth with water or a specialized screen cleaner. Never spray liquid directly onto the screen.

### 6.2. Cleaning the Cabinet

Use a soft, dry cloth to clean the TV cabinet. Avoid using abrasive cleaners or solvents.

### 6.3. Ventilation

Ensure the ventilation openings on the back of the TV are not blocked. Proper airflow prevents overheating.

### 6.4. Power Cord

Regularly check the power cord for any damage. If damaged, replace it immediately with an authorized part.

## 7. TROUBLESHOOTING

If you encounter issues with your TV, refer to the following common problems and solutions before contacting customer support.

- **No Power:**
  - Check if the power cord is securely plugged into the TV and the wall outlet.
  - Ensure the power outlet is working by plugging in another device.
  - Press the power button on the TV or remote control.
- **No Picture, But Has Sound:**
  - Check the input source. Press the 'Source' or 'Input' button on your remote to cycle through inputs.
  - Ensure all cables (HDMI, AV) are securely connected to both the TV and the external device.
- **No Sound, But Has Picture:**
  - Check the volume level on both the TV and any connected external devices.
  - Ensure the TV is not muted. Press the 'Mute' button on the remote.
  - Check audio output settings in the TV menu.
- **Poor Picture Quality:**
  - Check the antenna or cable connection.
  - Adjust picture settings (brightness, contrast, sharpness) in the TV menu.
  - If using an external device, check its output resolution.
- **Remote Control Not Working:**
  - Replace the batteries in the remote control.
  - Ensure there are no obstructions between the remote and the TV's IR sensor.
  - Try pointing the remote directly at the TV.
- **Cannot Connect to Wi-Fi:**
  - Ensure your Wi-Fi router is on and working.

- Check the Wi-Fi password. It is case-sensitive.
- Try restarting your router and the TV.
- Move the TV closer to the router or consider a Wi-Fi extender.
