3. SETUP

3.1 Charging the Device

The SUNPOW C015 Rangefinder is equipped with a rechargeable Lithium-Ion battery. Before first use, or when the battery indicator on the display shows low power, connect the included USB-C charging cable to the charging port on the device and to a compatible USB power source. A full charge provides up to 40,000 uses.

RECHARGEABLE

40000 times continuous use with USB-C rechargeable battery, the range finder is always ready to go.

3.2 Adjusting Focus

To ensure a clear view through the eyepiece, rotate the diopter adjustment ring located on the eyepiece until the display and target appear sharp and in focus. This adjustment is crucial for accurate readings, especially for users with varying

eyesight.

4. OPERATING MODES

The SUNPOW C015 offers five distinct measurement modes to cater to various needs. Press the 'M' button to cycle through these modes.
