Assembly Instructions

The Fawkes Phoenix 3D Model Kit consists of 172 durable punch-out pieces. Follow the numbered steps in the included instruction manual for proper assembly. No glue or additional tools are required as pieces are designed to interlock securely.

Key Assembly Steps:

1. Identify and carefully punch out pieces from the EPS foam sheets. Refer to the instruction manual for piece identification.
2. Assemble the core body structure of Fawkes, ensuring all tabs are securely inserted into their corresponding slots.
3. Attach the wings and tail feathers, paying attention to the layered design for a realistic appearance.
4. Construct the display stand according to the instructions.
5. Mount the completed Fawkes Phoenix model onto its display stand.

Maintenance

To maintain the appearance and integrity of your Fawkes Phoenix 3D model, follow these guidelines:

- **Cleaning:** Gently dust the model with a soft, dry cloth. Avoid using liquid cleaners or abrasive materials, as these may damage the foam and printed surfaces.
- **Storage/Display:** Display the model in a stable location away from direct sunlight, extreme temperatures, and high humidity to prevent warping or fading.
- **Handling:** Handle the model with care, especially when moving it, to avoid bending or detaching pieces.

Troubleshooting

Common Issues and Solutions:

- **Pieces do not fit:** Ensure you are using the correct pieces for the current step as indicated in the instruction manual. Verify that the tabs are aligned correctly with the slots. Do not force pieces, as this may cause damage.
- **Model is unstable:** Recheck all connections to ensure pieces are fully inserted and locked into place. Ensure the display stand is assembled correctly and placed on a flat, stable surface.
- **Missing pieces:** Double-check all foam sheets and packaging. If a piece is genuinely missing, refer to the warranty and support section for contact information.
