2. SAFETY INFORMATION

WARNING: To reduce the risk of electric shock, do not use this toothbrush in the shower or near water. Keep this toothbrush out of reach of children under 3 years of age to prevent choking or injury. Supervise children during use. Replace the brush head every 3 months or when the bristles become frayed, whichever comes first. Store this toothbrush and all components out of reach of children and pets when not in use. Do not use this toothbrush for purposes other than oral hygiene.

3. PACKAGE CONTENTS

Your Kuicur Sonic Electric Toothbrush package includes:

- 2 x Kuicur Sonic Electric Toothbrush Handles (Black and Blackwhite)

- 20 x Replacement Brush Heads (each lasting 3 months)
- 2 x Travel Cases
- 2 x USB Charging Cables
- 2 x User Manuals
- 2 x Toothbrush Stands

Image: A collection of ten individually wrapped replacement brush heads, highlighting the generous supply included.

4. SETUP

4.1 Initial Charging

Before first use, fully charge your toothbrush. Connect the provided USB charging cable to the charging port at the bottom of the toothbrush handle and plug the other end into a compatible 5V USB power adapter (not included). The battery boasts an impressive 90-day life on a single charge, requiring approximately 8 hours for a full charge.

Image: The Kuicur electric toothbrush handle is shown charging via a USB cable, indicating its powerful 1500mAh battery and 90-day usage per charge.

4.2 Attaching the Brush Head

Align the brush head with the metal shaft on the toothbrush handle and push it down firmly until it clicks into place. Ensure it is securely attached before use.

4.3 Using the Toothbrush Stand

The included toothbrush stand can be affixed to a clean, dry bathroom wall using its double-sided adhesive for convenient storage and easy access, helping to keep your counter clutter-free.

5. OPERATING INSTRUCTIONS

5.1 Power On/Off and Mode Selection

Press the power button to turn on the toothbrush. The toothbrush features 5 core modes, each with 3 intensity settings,

offering a total of 15 customizable cleaning experiences. To cycle through the modes, press the power button again within 5 seconds of turning it on or switching modes. To turn off the toothbrush, press and hold the power button for 5 seconds, or it will automatically turn off after 2 minutes of use.

Image: A visual representation of the 5 core modes (Cleaning, Bright White, Polishing, Nursing, Cleansing) and their 3 intensity settings, totaling 15 customizable options.

5.2 Brushing Technique

Apply a pea-sized amount of toothpaste to the brush head. Wet the brush head and handle. Gently place the toothbrush head on your teeth at a 45-degree angle and move it slowly across your teeth in a small back-and-forth motion. The smart vibrating notification timer will pulse every 30 seconds, reminding you to move to the next quadrant of your mouth, ensuring a thorough 2-minute cleaning as recommended by dental professionals.

Thorough Cleaning in Tight Tooth Gaps

Image: A detailed view of the toothbrush head, highlighting its soft and flexible bristles, 45% greater density, and "U" shape contoured to fit the teeth curve for effective cleaning in tight gaps and sensitive gums.

6. MAINTENANCE

6.1 Cleaning the Toothbrush

After each use, rinse both the brush head and the handle under running water and wipe them dry. Ensure no toothpaste residue remains on the handle or around the brush head connection.

6.2 Replacing Brush Heads

It is recommended to replace the brush head every 3 months or sooner if the bristles become frayed. To replace, simply pull the old brush head off the handle and snap a new one into place.

7. TROUBLESHOOTING

- **Toothbrush not turning on:** Ensure the toothbrush is fully charged.
- **Weak vibrations:** The battery might be low. Recharge the toothbrush.
- **Brush head loose:** Ensure the brush head is firmly snapped onto the handle.
- **Pressure sensor light activates frequently:** You might be brushing too hard. Apply lighter pressure.
