Changing Straps

The straps of your realme Watch S2 can be easily changed to customize its look. Simply release the pin on the underside of the strap to detach it, and attach a new strap by aligning the pin with the watch body.

The watch features easily interchangeable straps for personalized style.

Troubleshooting

If you encounter any issues with your realme Watch S2, try the following steps:

- **Watch not turning on:** Ensure the watch is fully charged. Connect it to the charger for at least 30 minutes.
- **Pairing issues:** Make sure Bluetooth is enabled on your phone and the watch is within range. Restart both devices and try pairing again.
- **Notifications not appearing:** Check notification settings in the realme Link app and your phone's system settings to ensure permissions are granted.

- **Inaccurate health data:** Ensure the watch is worn snugly on your wrist, not too tight or too loose. Clean the sensors regularly.
- **Battery draining quickly:** Reduce screen brightness, disable unnecessary notifications, and limit continuous heart rate monitoring if not needed.
