ShedRain Vortex V2

ShedRain Vortex V2 Automatic Compact Folding Travel Umbrella User Manual

Model: Vortex V2

INTRODUCTION

This manual provides instructions for the proper use and care of your ShedRain Vortex V2 Automatic Compact Folding Travel Umbrella. Designed for durability and convenience, this umbrella features advanced wind-resistant technology and a compact design, making it suitable for various weather conditions and travel.

KEY FEATURES

- **Automatic Open & Close:** Convenient push-button mechanism for quick deployment and retraction.
- **Vented Double Canopy:** Engineered to allow wind to pass through, enhancing stability in gusty conditions.
- **Vortex Cable Technology:** Patented design keeps the canopy taut, preventing inversion in winds up to 75 MPH.
- **Durable Construction:** Features a lightweight yet tough steel frame and shaft.
- **Eco-Friendly Fabric:** Canopy made from 100% recycled polyester fabric derived from plastic bottles.
- **Comfort Grip Handle:** TPR rubber grip handle with a TPR wrist strap for secure carrying.
- **UV Protection:** Provides protection from harmful UV rays in addition to rain.

Vented canopy for wind resistance

Helps combat winds up to 75MPH

SETUP AND OPERATION

Opening the Umbrella

1. Ensure the umbrella is free from any obstructions.
2. Press the button located on the handle. The canopy will automatically extend and lock into place.

Closing the Umbrella

1. Press the same button on the handle. The canopy will automatically retract.
2. Manually push both ends of the umbrella together until it clicks into its fully closed and compact position. This action resets the automatic opening mechanism.

Auto Open & Close

The touch of the button opens & closes umbrella with ease

MAINTENANCE

To ensure the longevity of your ShedRain Vortex V2 umbrella, always follow this care instruction:

- **Leave Open to Dry:** After use, allow the umbrella to fully open and air dry completely before folding and storing. This prevents mildew and preserves the fabric's integrity.

TROUBLESHOOTING

If you encounter any issues with your ShedRain Vortex V2 umbrella, please consider the following:

- **Umbrella Not Opening/Closing Automatically:** Ensure the umbrella has been fully reset by manually pushing both ends together until it clicks after closing. If the issue persists, check for any obstructions in the mechanism.
- **Canopy Inversion:** While designed to resist winds up to 75 MPH, extreme conditions can still cause inversion. Gently push the canopy back into its original shape. The Vortex Cable Technology is designed to prevent damage from such events.

For further assistance, please refer to the Warranty and Support section.

SPECIFICATIONS

Model Name	Vortex V2
Brand	ShedRain
Opening Mechanism	Automatic, Push Button
Canopy Material	100% recycled polyester fabric from plastic bottles
Shaft Material	Steel
Handle Material	Rubber (TPR)
Frame Material	Alloy Steel
Canopy Diameter	43 Inches (109 cm) Arc
Item Weight	0.44 Kilograms
Folded Dimensions (approx.)	12"W x 8"H

Durable Steel Frame & Shaft
Lightweight & engineered tough
