Setup

Before first use, it is recommended to fully charge your LOVELEDI Portable Charger.

1. Charging the Power Bank:

Connect the provided USB-C cable to the Type-C input/output port on the power bank. Connect the other end of the cable to a compatible USB wall adapter (not included) or a computer's USB port. The LED indicator lights will illuminate to show the charging progress. A full charge typically takes 4-5 hours with a 5V 2.0A adapter.

VERSATILE RECHARGING

With both a USB-C and Micro USB input port, you have more options over how you recharge

Troubleshooting

If you encounter issues with your power bank, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Power bank not charging	Cable issue, adapter issue, or power bank fully charged.	Ensure the charging cable is securely connected. Try a different USB-C cable or wall adapter. Check LED indicators; if all are solid, the power bank is fully charged.
Device not charging from power bank	Power bank low on charge, cable issue, or device incompatibility.	Recharge the power bank. Try a different charging cable for your device. Ensure your device is compatible with USB charging.
Slow charging	Cable quality, device input limit, or multiple devices charging.	Use a high-quality charging cable. Ensure your device supports fast charging. Charging multiple devices simultaneously may reduce individual charging speed.
LED indicators not working	Power bank is off or malfunction.	Press the power button to activate the indicators. If the issue persists after charging, contact customer support.
