## Breville BFP838

# Breville BFP838 Paradise 16 Cup Food Processor and Dicer Instruction Manual

## INTRODUCTION

---

This manual provides essential information for the safe and efficient operation, maintenance, and care of your Breville BFP838 Paradise 16 Cup Food Processor and Dicer. Please read all instructions thoroughly before first use and retain this manual for future reference.

The Breville Paradise 16 is designed for precision food preparation, offering a 16-cup capacity and a versatile range of functions including dicing, slicing, shredding, mincing, and puréeing. Its robust design and comprehensive accessory kit aim to simplify various kitchen tasks.

Take precision dicing to the next level.  
Includes Breville+: free recipes, classes & guides

The Breville BFP838 Paradise 16 Food Processor, ready for use on a kitchen counter.

## SETUP

- 1. Unpacking:** Carefully remove all components from the packaging. Ensure all accessories, including the main bowl, mini bowl, lids, blades, and dicing kits, are present.
- 2. Cleaning:** Wash all removable parts (bowls, lids, blades, pushers) in warm, soapy water or in the dishwasher before first use. Wipe the motor base with a damp cloth.
- 3. Assembly:** Place the motor base on a clean, dry, and stable surface. Secure the main processing bowl onto the motor base by aligning the handle with the 'ALIGN' mark and rotating clockwise until it locks into place.
- 4. Blade/Disc Installation:** Select the appropriate blade or disc for your task. Place the spindle onto the motor shaft in the bowl. Carefully place the chosen blade or disc onto the spindle.
- 5. Lid and Feed Chute:** Secure the processing bowl lid onto the bowl, ensuring the feed chute aligns with the handle. Insert the large food pusher into the feed chute. The BFP838 features a 3-in-1 feed chute with varying sizes (1.7 in to 5.5 in) to accommodate different food items, reducing the need for pre-preparation.

Heavy duty high torque 1450W induction motor easily handles the toughest jobs in the kitchen

## Product Dimensions 17.7" High x 11.3" Wide x 9.2" Deep

The extra-large 5.5-inch feed chute of the Breville BFP838, designed for minimal pre-prep.

## OPERATING INSTRUCTIONS

### General Operation

Ensure the unit is properly assembled and the lid is securely locked before plugging into a power outlet. Use the 'ON/OFF' button to start and stop the processor. The 'PULSE' button provides short bursts of power for controlled processing.

### Dicing Function

The Paradise 16 includes 8mm, 12mm, and 16mm dicing attachments. These work by first slicing the ingredient, then pushing it through a grid to create uniform cubes. For best results, ensure ingredients are firm and fit comfortably within the feed chute.

Take precision dicing to the next level. The 16mm, 12mm & 8mm dicing attachments work by slicing, then dicing your ingredients

The 8mm, 12mm, and 16mm dicing disks for the Breville BFP838, producing consistent cubes.

## Other Functions

The processor comes with a variety of blades and discs for different tasks:

- **Adjustable Slicer:** For precise slicing from 0.3mm to 8.0mm.
- **Reversible Shredding Disc:** For fine or coarse shredding.
- **French Fries Disc:** For making uniform French fry cuts.
- **Micro-Serrated S-Blade:** For chopping, mincing, and puréeing.
- **Dough Blade:** For kneading dough.
- **Mini Blade & Bowl:** For processing smaller quantities.

### Feed Chute Usage

The extra-large 5.5-inch feed chute is designed to minimize pre-cutting. It features a 3-in-1 design, allowing you to process various sizes of ingredients. Use the appropriate pusher to guide food through the chute.

## MAINTENANCE AND CLEANING

### Cleaning

Always unplug the food processor before cleaning. All removable parts (bowls, lids, blades, discs, pushers) are dishwasher safe. For dicing grids, use the provided cleaning tools and a sink sprayer to remove trapped food particles. The motor base should be wiped clean with a damp cloth; never immerse it in water.

### Storage

The Breville BFP838 comes with a dedicated storage container to keep all attachments and cleaning utensils organized and protected when not in use. This helps maximize countertop space and ensures accessories are easily accessible.

The chef's armory storage container houses all attachments & cleaning utensils for easy storage

The accessory storage container for the Breville BFP838, keeping all components organized.

## TROUBLESHOOTING

- **Unit Does Not Turn On:** Ensure the power cord is securely plugged into a working outlet. Verify that the processing bowl and lid are correctly assembled and locked into place. The safety interlock system prevents operation if components are not properly aligned.
- **Food Gets Stuck in Dicing Grid:** For softer ingredients, some residue may remain. Use the provided cleaning tool to dislodge food. Ensure ingredients are firm enough for dicing and are fed consistently.
- **Inconsistent Slicing/Shredding:** Ensure the correct disc is installed and the food pusher is used to apply even pressure. Overfilling the feed chute can lead to uneven results.
- **Motor Overheating:** If the motor stops during operation, it may be due to overheating from prolonged heavy use. Unplug the unit and allow it to cool down for at least 30 minutes before resuming use. Reduce batch sizes for very dense ingredients.

## SPECIFICATIONS

Feature	Detail
Brand	Breville
Model Name	Paradice 16 Cup
Item Model Number	BFP838BSS1BNA1
Product Dimensions	11.3"D x 9.2"W x 6.8"H
Item Weight	16.9 pounds
Color	Brushed Stainless Steel
Bowl Capacity	16 Cups (121 fl. oz)
Wattage	1450 watts
Motor Type	Heavy Duty Induction Motor
Number of Speeds	1 (with Pulse function)
Blade Material	Stainless Steel
Special Feature	Removable Parts, Dicing System
