CANMEIJIA Wall Sconce 2 Light Instruction Manual

Model: CMJ-BD-C-2pc

1. INTRODUCTION AND SAFETY INFORMATION

Thank you for choosing the CANMEIJIA Wall Sconce 2 Light. This manual provides essential information for the safe installation, operation, and maintenance of your new lighting fixture. Please read these instructions carefully before installation and retain them for future reference.

Important Safety Instructions:

- **Electrical Safety:** Installation must be performed by a qualified electrician or a person with sufficient electrical knowledge. Always turn off the main power supply at the circuit breaker before beginning any electrical work. Handling live wires can be dangerous and may result in serious injury or death.
- **Bulb Requirements:** This fixture requires E26 standard medium base bulbs (Max 60W for each light). Bulbs are **not included**. Ensure bulbs are compatible with the fixture's wattage rating.
- **Dimming Capability:** The fixture is fully dimmable when used with a compatible dimmer bulb and a compatible dimmer switch (both not included).
- **Indoor Use Only:** This product is designed for indoor use only and is **not water resistant**. Do not install in areas exposed to direct water spray or excessive humidity.
- **Fixture Integrity:** Do not modify the fixture in any way. Any modifications may void the warranty and create a safety hazard.

2. SETUP AND INSTALLATION

The CANMEIJIA Wall Sconce is designed for straightforward installation. All necessary mounting hardware is included. The fixture can be mounted with the glass shade pointing upwards or downwards to suit your aesthetic preference.

Installation Steps:

1. **Prepare for Installation:** Turn off power at the main circuit breaker. Ensure the power is completely off before proceeding.

2. **Remove Mounting Plate:** Unscrew the accessories on the lamp cup and separate the mounting plate from the fixture by unscrewing the two screws.
3. **Attach Mounting Plate:** Install the circular mounting plate to your wall's electrical box using the provided screws. Ensure it is securely fastened.
4. **Wire Connections:** Carefully connect the fixture's wires to your household electrical wires. Connect the live wire (usually black) to the fixture's live wire, the neutral wire (usually white) to the fixture's neutral wire, and the ground wire (usually green or bare copper) to the fixture's ground wire. Secure connections with wire nuts.
5. **Mount Fixture:** Align the fixture with the mounting plate and secure it in place with the previously removed screws.
6. **Install Glass Shade:** Carefully attach the clear glass shade to the fixture.
7. **Insert Bulbs:** Screw in the E26 standard medium base bulbs (not included) into the sockets. Do not exceed 60W per bulb.
8. **Restore Power:** Once installation is complete and all connections are secure, turn the power back on at the circuit breaker.

3. OPERATING INSTRUCTIONS

Once properly installed and powered, your CANMEIJIA Wall Sconce is ready for use. Operate the light using your standard wall switch. If a dimmer switch and compatible dimmable bulbs are installed, you can adjust the light intensity.

Bulb Compatibility:

This fixture is designed for E26 standard medium base bulbs. Various bulb types can be used, including LED, incandescent, and CFL, provided they do not exceed 60W per socket. For optimal energy efficiency and longevity, LED bulbs are recommended.

4. MAINTENANCE

Regular maintenance will help preserve the appearance and functionality of your wall sconce.

Cleaning:

- Always ensure the power is off before cleaning the fixture.
- Wipe the matte black finish with a soft, dry cloth. Avoid abrasive cleaners or solvents, as these can damage the finish.
- Clean the clear glass shade with a soft, damp cloth and a mild glass cleaner if necessary. Dry

thoroughly to prevent water spots.

Durability:

The fixture is constructed with rust-resistant materials to ensure long-lasting durability, reducing the need for frequent replacement.

5. TROUBLESHOOTING

If you encounter issues with your wall sconce, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Light does not turn on.	No power to the fixture. Bulb is faulty or loose. Wiring issue.	Check the circuit breaker and wall switch. Ensure the bulb is screwed in tightly and is not burnt out. Replace if necessary. Consult a qualified electrician to inspect wiring connections.
Light flickers.	Loose bulb connection. Incompatible dimmer switch/bulb. Wiring issue.	Tighten the bulb. Ensure both the dimmer switch and bulbs are compatible with each other and the fixture. Consult a qualified electrician to inspect wiring connections.
Glass shade is loose.	Shade not properly secured.	Gently tighten the retaining ring or screws that hold the glass shade in place. Do not overtighten.

If these solutions do not resolve the issue, please contact customer support or a qualified electrician.
