INSTALLATION

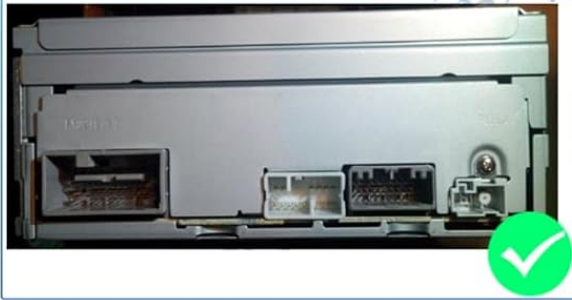

The METEESER car radio is designed for a plug-and-play installation in compatible Honda CRV models (2012-2016). Ensure your vehicle's original radio matches the compatible models to avoid fitment issues.

Vehicle Compatibility Check

Before installation, confirm your Honda CRV's original radio configuration. This unit is compatible with specific factory radio models. Refer to the images below to identify your vehicle's original radio type.

CAR MODELS Attention

A

Before purchasing, please select the product based on the CD back of your original car. This product only supports option a. If you require option B/C, please contact our customer service for appropriate advice.

B

C

If the amplifier is not working, connect the amplifier cable to the red ACC cable.

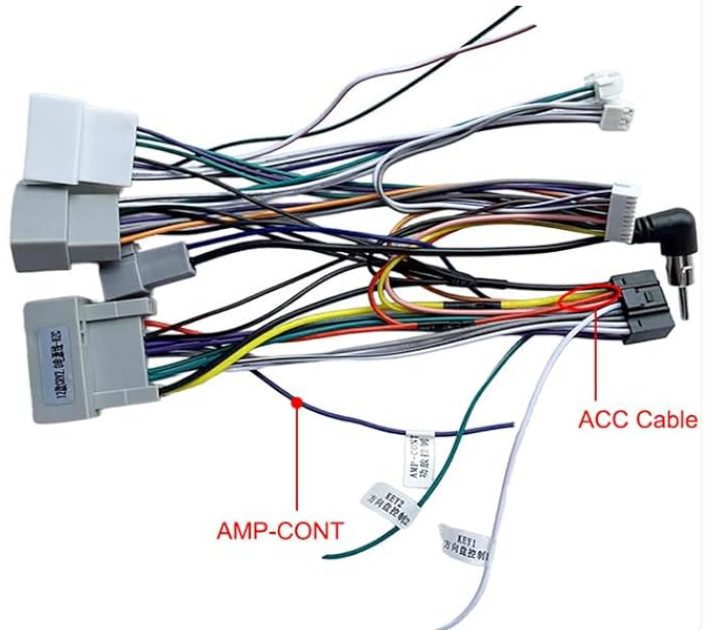

Image: A visual guide showing the back of different Honda CRV original radio units. Option A is compatible, while Options B and C are not. This helps users identify if their vehicle is suitable for this product.

Image: A comparison of different Honda CRV dashboard configurations, indicating which ones are compatible ('Fit') and which are not ('Not Fit') with the METEESER car radio. This helps ensure proper physical fitment.

Wiring Connection

The unit comes with a plug-and-play wiring harness. Connect the harness plugs to their corresponding sockets on the back of the product and to the vehicle's wiring. Ensure all connections are secure.

Android System

TROUBLESHOOTING (FAQs)

Q: Do I need to purchase any other parts to install this car stereo into my car?

A: The package includes everything needed for a standard installation. If your car has a premium sound system, you may need to purchase an additional wiring harness. For the J-B-L system, search for "B0CS6KTCBX" or "B0D2X43D4Y" on Amazon.

Q: WiFi or Bluetooth signal is weak or not working?

A: Ensure your cell phone's Bluetooth is turned on before pairing. Delete your phone's Bluetooth records and re-match the connection. Plug in the camera input cable or shorten the two blue wires of the CAM-IN cable.

Q: How to adjust the sound, where is the equalizer setting, the sound can't be adjusted?

A: For sound adjustment, use the volume "up" and "down" buttons. If the sound cannot be adjusted, reset the device or unplug the power cord and plug it in again. For equalizer settings, navigate to the menu page and click the "Sound Adjustment" button to access the sound adjustment interface.

WARRANTY & SUPPORT

The METEESER Car Radio comes with a 2-year warranty. For any technical support or customer service inquiries, please refer to the contact information provided in your product packaging or on the seller's Amazon store page. Professional customer service and lifetime technical support are available.
