## MAINTENANCE

To ensure the longevity and appearance of your DEVAISE Office Storage Cabinet, follow these simple maintenance guidelines:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, as these can damage the finish.
- **Spills:** The particle board is water-resistant. Promptly wipe up any spills to prevent moisture absorption and potential damage.
- **Inspection:** Periodically check all screws and fittings to ensure they remain tight. Re-tighten if necessary to maintain structural integrity.
- **Weight Distribution:** Distribute weight evenly across shelves and the top surface. Do not exceed the maximum weight capacity of 150 lbs on the top board.

## TROUBLESHOOTING

### Stability Issues:

- **Wobbling:** If the cabinet feels shaky after assembly, ensure all screws are fully tightened. For enhanced stability, especially if using dowel-based construction, consider disassembling and reassembling with wood glue applied to the dowel joints.
- **Uneven Surface:** Ensure the cabinet is placed on a flat, level surface. Adjust the lockable casters if necessary to compensate for minor unevenness.

### Caster Movement:

- **Difficulty Rolling:** Check for debris caught in the caster wheels. Clean as needed. Ensure the caster brakes are disengaged.
- **Cabinet Rolling When Locked:** Verify that the levers on both lockable casters are fully pressed down to engage the brakes.

## General Safety Precautions:

- Do not overload the cabinet. Refer to the specifications for weight limits.
- Use the caster brakes when the cabinet is in its desired position to prevent unintended movement.
- Handle the cabinet with care, especially when moving it, to prevent damage to the unit or surrounding objects.
