## Miroddi MF55

# Miroddi Credit Card Holder with Find My (Model MF55) Instruction Manual

## INTRODUCTION

---

This manual provides detailed instructions for the Miroddi Credit Card Holder with integrated Apple Find My functionality. This premium leather wallet is designed for secure card storage, RFID blocking, and easy location tracking. Please read this manual thoroughly before using your new card holder.

## PRODUCT OVERVIEW

---

The Miroddi Credit Card Holder (Model MF55) is a compact and portable wallet featuring double-sided elastic pockets, a convenient thumb slot for card access, and an integrated tracker compatible with Apple Find My. It is constructed from high-quality PU leather and includes RFID blocking technology for enhanced security.

## PACKAGE CONTENTS

- 1 x Miroddi Credit Card Holder (MF55)
- 1 x Magnetic Charging Cable
- 1 x Instruction Manual

## SETUP

### 1. Pairing with Apple Find My

The Miroddi Credit Card Holder integrates seamlessly with Apple's Find My network, allowing you to locate your wallet using your iPhone or iPad.

1. Ensure your iPhone or iPad is running the latest iOS/iPadOS version.
2. Open the **Find My** app on your Apple device.
3. Navigate to the **Items** tab.
4. Tap the **+** icon and select **Add Other Item**.
5. Follow the on-screen instructions to complete the pairing process.

## 2. Charging the Device

The integrated tracker is powered by a rechargeable battery. A full charge can last up to 4 months.

1. Locate the magnetic charging port on the side of the card holder.
2. Connect the provided magnetic charging cable to the port.
3. Plug the USB-C end of the cable into a compatible power adapter (not included).
4. A red LED indicator will illuminate during charging. The LED will turn off when charging is complete.

## OPERATING INSTRUCTIONS

### 1. Storing Cards and Cash

The card holder features double-sided elastic pockets designed to securely hold up to 14 cards and some folded cash.

- Gently slide your cards into the elastic pockets.
- Utilize the thumb slot at the bottom to easily push up and retrieve cards when needed.

# Left behind Remind

## 2. Using Apple Find My Features

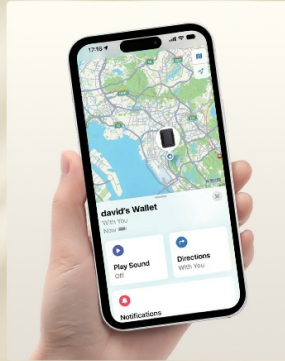

Once paired, you can utilize various features within the Apple Find My app to locate your card holder.

- **Locate Your Wallet:** Open the Find My app on your iPhone or iPad to view the card holder's last known location on a map.
- **Play Sound:** If your card holder is nearby (within Bluetooth range), use the 'Play Sound' feature in the Find My app to emit an audible melody from the device, helping you pinpoint its exact location.
- **Left-Behind Alerts:** Configure alerts in the Find My app to receive notifications on your Apple device if you accidentally leave your card holder behind at a location.

## Find Your Wallet in 4 Steps

1. Pair

2. Locate

3. Play Sound

4. Found Your Wallet

Image: A Miroddi card holder on a table with headphones, and an iPhone displaying a 'Wallet left behind' notification.

### 3. RFID Blocking

The Miroddi Credit Card Holder is equipped with RFID blocking technology to safeguard your personal information.

- The special lining within the wallet prevents unauthorized scanning of your credit cards and other RFID-enabled cards.
- This feature also provides degauss protection to prevent demagnetization of your cards.

# Quick Access Cards

Simply design to easily slide in-and-out your cards

## MAINTENANCE

### 1. Cleaning

To maintain the appearance and longevity of your card holder:

- Wipe the exterior with a soft, damp cloth.
- Avoid using harsh chemicals, abrasive cleaners, or excessive moisture.

- Allow the card holder to air dry completely before use.

## 2. Battery Care

To ensure continuous functionality of the Find My feature:

- Charge the integrated battery approximately every 4 months.
- Avoid fully depleting the battery for extended periods.

## TROUBLESHOOTING

Issue	Possible Solution
Card holder not appearing in Find My app.	Ensure the card holder's battery is charged. Re-attempt the pairing process as described in the Setup section. Check that Bluetooth is enabled on your Apple device.
'Play Sound' feature is not loud enough.	The sound emitted is designed for locating nearby items. For best results, ensure your environment is quiet. The sound may be muffled if the wallet is covered or inside a bag.
Elastic pockets seem loose or stretched.	The elastic is designed for durability, but frequent overstuffing beyond the recommended 14-card capacity may affect its longevity. Avoid exceeding the stated capacity.
Charging indicator light not working.	Ensure the magnetic charging cable is securely connected to both the card holder and the power source. Try a different USB-C power adapter or port.
