3.3 Connecting to Your TV

The Apollo S80 offers multiple connectivity options for your television or other audio sources.

HDMI eARC Connection (Recommended)

For the highest quality audio and Dolby Atmos support, use the HDMI eARC connection.

1. Insert one end of the HDMI cable into your TV's "ARC/eARC" port.
2. Insert the other end of the HDMI cable into the soundbar's "HDMI TO TV (eARC)" port.
3. Press the "eARC" button on the remote control to select the "eARC" input.

5. Maintenance

To ensure the longevity and optimal performance of your ULTIMEA Apollo S80 soundbar, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe down the surfaces of the soundbar and subwoofer. Avoid using

abrasive cleaners, waxes, or solvents as they may damage the finish.

- **Ventilation:** Ensure that the soundbar and subwoofer have adequate ventilation. Do not block any ventilation openings.
- **Placement:** Avoid placing the unit in direct sunlight, near heat sources, or in areas with high humidity or dust.
- **Cables:** Periodically check all cable connections to ensure they are secure and free from damage.

6. Troubleshooting

If you encounter any issues with your ULTIMEA Apollo S80, please refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
No Power	Power cable not connected; Power outlet not working.	Ensure power cable is securely plugged in; Try a different power outlet.
No Sound	Incorrect input source selected; Cables not connected properly; TV audio settings.	Select the correct input source (e.g., HDMI eARC, Optical, AUX, BT); Check all audio cable connections; Ensure TV audio output is set to external speakers.
Bluetooth Disconnection	Device out of range; Interference.	Move device closer to the soundbar; Avoid placing soundbar near other wireless devices.
Remote Control Not Working	Batteries depleted; Obstruction between remote and soundbar.	Replace batteries; Remove any obstructions.
RGB Lights Not Working	RGB feature disabled in app; App malfunction.	Check RGB settings in the Ultimea App; Restart the app and soundbar.

If the problem persists after trying these steps, please contact ULTIMEA customer support.
