sunvito 10-Tier Vertical Shoe Rack Instruction Manual

Model: 2083XJ | Brand: sunvito

INTRODUCTION

Thank you for choosing the sunvito 10-Tier Vertical Shoe Rack. This instruction manual provides essential information for the proper assembly, operation, and maintenance of your new shoe organizer. Designed for efficiency and durability, this rack offers a practical solution for decluttering your living spaces.

INCLUDED COMPONENTS

Please ensure all parts are present before beginning assembly:

- Corrosion-resistant metal pipes (various lengths)
- High-quality PP connectors
- Waterproof non-woven fabric layers (for shelves)
- Side panels (for stability)
- Small wooden mallet (for assembly assistance)
- Hooks (optional, for hanging items)

SETUP AND ASSEMBLY

Follow these steps to assemble your sunvito 10-Tier Vertical Shoe Rack. No additional tools are required beyond what is provided.

1. **Identify Parts:** Separate the metal pipes by length, connectors, and fabric layers.
2. **Assemble Base:** Connect the shortest pipes to the base connectors to form the bottom frame.
3. **Install First Layer:** Slide a non-woven fabric layer onto the frame. Ensure it is taut.
4. **Build Upwards:** Attach the next set of vertical pipes to the connectors, then add another fabric layer. Repeat this process for all 10 tiers. Use the provided mallet to gently tap connectors for a secure fit.
5. **Add Side Panels:** Secure the side panels to the frame as you build, ensuring shoes remain securely in place.
6. **Customize Height (Optional):** To accommodate boots or high heels, you can omit one or more fabric layers to create taller compartments. The rack can also be split into two smaller units (e.g., two 5-tier racks).

7. **Attach Hooks (Optional):** If desired, attach the included hooks to the side of the frame for hanging bags or other accessories.

For a visual guide, please refer to the assembly video:

OPERATING INSTRUCTIONS

Your sunvito 10-Tier Vertical Shoe Rack is designed for efficient shoe storage and organization.

- **Capacity:** Each tier is designed to hold approximately 2 pairs of adult shoes, with a maximum weight capacity of 3kg per shelf. The entire unit can hold 20-25 pairs of shoes.
- **Placement:** Ideal for closets, entryways, cabinets, garages, dormitories, and hallways. Its narrow design helps save space.
- **Adjustable Shelves:** Utilize the customizable assembly to create taller sections for boots or high heels by removing a fabric layer.
- **Multi-purpose Use:** While primarily for shoes, the shelves can also store bags, toys, towels, clothes, sundries, and small accessories, provided the weight limit is respected.

MAINTENANCE AND CARE

To ensure the longevity and appearance of your shoe rack, follow these simple care instructions:

- **Cleaning:** Wipe the non-woven fabric layers and metal pipes with a dry cloth to remove dust and dirt. For spills, a damp cloth can be used, followed by drying.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners or harsh chemicals, as these may damage the materials.
- **Regular Check:** Periodically check all connections to ensure they remain secure and tighten if necessary.

TROUBLESHOOTING

If you encounter any issues with your shoe rack, please refer to the following common solutions:

- **Instability:** Ensure all pipes are fully inserted into their connectors and tapped securely with the mallet. Check that the rack is placed on a flat, even surface.
- **Shelves Sagging:** Avoid overloading shelves beyond the 3kg weight limit. Distribute weight evenly across the shelf.
- **Difficulty Assembling:** Refer to the assembly video and ensure you are using the correct pipe lengths and connectors for each step. Applying slight pressure and using the mallet can help secure connections.
- **Shoes Falling Off:** Ensure the side panels are correctly installed to prevent shoes from slipping off the sides.

SPECIFICATIONS

Feature	Detail
Brand	sunvito
Model Name	Grey Shoe Rack (Model 2083XJ)
Number of Shelves	10
Product Dimensions	17.71"D x 11.02"W x 63"H
Material	Corrosion-resistant metal pipes, high-quality PP connectors, waterproof non-woven fabric
Color	Grey
Item Weight	3 Pounds
Special Feature	Adjustable, Sturdy
Assembly Required	Yes
Recommended Uses	Shoes, bags, toys, towels, clothes, sundries
