## UNINELL HOME UV3

# UNINELL HOME UV3 Cordless Cane Vacuum Cleaner Accessory Kit Instruction Manual

## INTRODUCTION

This manual provides comprehensive instructions for the UNINELL HOME UV3 Cordless Cane Vacuum Cleaner Accessory Kit. This kit is designed to enhance and maintain the performance of your UNINELL HOME UV3 cordless vacuum cleaner by providing essential replacement parts: a high-capacity replacement battery, a compatible power adapter, and 8 HEPA filters. Please read this manual thoroughly before installation and use to ensure proper function and longevity of your vacuum accessories.

## SAFETY INFORMATION

- Always disconnect the vacuum cleaner from power before installing or replacing any components.
- Use only the provided power adapter or a UNINELL HOME approved replacement for charging the battery.
- Do not expose the battery or power adapter to water, extreme temperatures, or direct sunlight.
- Keep HEPA filters dry and clean. Do not wash filters with water unless explicitly stated in the vacuum's main manual.
- Dispose of old batteries and filters according to local regulations.

## PACKAGE CONTENTS

Verify that all items are present in your accessory kit:

- 1 x Replacement Battery for UNINELL HOME UV3
- 1 x Power Adapter
- 8 x HEPA Filters

## SETUP

### 1. Battery Installation

1. Ensure your UNINELL HOME UV3 vacuum cleaner is powered off and disconnected from any charging source.
2. Locate the battery compartment on your vacuum cleaner. Refer to your vacuum's main instruction manual for specific battery removal instructions.
3. Carefully remove the old battery.
4. Insert the new replacement battery into the compartment, ensuring it clicks securely into place.

### 2. Charging the Battery

1. Connect the power adapter to a standard electrical outlet.
2. Plug the charging cable from the power adapter into the charging port on your UNINELL HOME UV3 vacuum cleaner.
3. Allow the battery to charge fully before first use. The charging indicator on your vacuum will typically

change color or turn off when charging is complete.

### 3. HEPA Filter Installation

1. Ensure the vacuum cleaner is off and the dustbin is empty.
2. Locate the filter housing, usually within or near the dustbin.
3. Remove the old HEPA filter.
4. Insert a new HEPA filter into the housing, ensuring it fits snugly to prevent air leakage.
5. Close the dustbin and filter housing securely.

## OPERATING

---

### Using the Charged Battery

Once the replacement battery is fully charged and installed, your UNINELL HOME UV3 vacuum cleaner is ready for use. Operate the vacuum as you normally would, following the instructions in your vacuum's main user manual. The new battery should provide optimal runtime.

### Maintaining Filter Performance

Regularly check the HEPA filter for dirt and debris. A clean filter is crucial for maintaining strong suction power and ensuring effective air filtration. Replace the filter as needed, typically every 3-6 months depending on usage, or when you notice a decrease in suction.

## MAINTENANCE

---

### Battery Care

- For optimal battery life, avoid completely draining the battery before recharging.
- Store the battery in a cool, dry place when not in use for extended periods.
- If the vacuum will not be used for a long time, charge the battery to about 50% before storage.

### HEPA Filter Replacement

The accessory kit includes 8 HEPA filters. It is recommended to replace the HEPA filter every 3 to 6 months, or more frequently if the vacuum is used heavily or in dusty environments. Refer to the 'Setup' section for installation instructions.

### Power Adapter Care

- Inspect the power adapter and cable regularly for any signs of damage. Do not use if damaged.
- Store the adapter in a safe place, away from pets and children, to prevent damage.

## TROUBLESHOOTING

---

### Battery Not Charging

- **Check Power Connection:** Ensure the power adapter is securely plugged into both the wall outlet and the vacuum's charging port.
- **Verify Outlet:** Test the wall outlet with another device to confirm it is functional.
- **Inspect Adapter:** Check the power adapter and cable for any visible damage. If damaged,

discontinue use and contact support.

- **Battery Seating:** Ensure the battery is correctly installed and fully seated in its compartment.

### Vacuum Not Powering On (with new battery)

- **Charge Battery:** Ensure the new battery has been fully charged before attempting to power on the vacuum.
- **Battery Installation:** Double-check that the battery is correctly and securely installed.
- **Vacuum Main Switch:** Confirm the main power switch on the vacuum is in the 'ON' position.

### Reduced Suction (after filter change)

- **Filter Seating:** Ensure the new HEPA filter is correctly installed and sealed within its housing. An improperly seated filter can cause air leaks and reduced suction.
- **Dustbin Check:** Verify the dustbin is empty and properly attached to the vacuum.
- **Other Filters:** Check if any other filters in the vacuum (e.g., pre-motor filter) also need cleaning or replacement.

## SPECIFICATIONS

Component	Specification
Product Model	UNINELL HOME UV3 Accessory Kit
Filter Type	HEPA Filter
Power Source	Battery Powered (for vacuum operation)
Unit Count (Filters)	8.0 Count
Brand	UNINELL HOME

## WARRANTY AND SUPPORT
