1. **Prepare Components:** Lay out all wooden pieces and hardware on a clean, flat surface. Refer to the hardware list to identify each part.
2. **Assemble Side Rails:** Attach the support side rails to the main frames using the specified screws. Ensure all connections are tight and secure.
3. **Attach Legs:** Securely fasten the legs to the bed frame corners.
4. **Install Slats:** Place the plywood slats across the bed frame. The slats are designed to support the mattress directly, eliminating the need for a box spring. The slats are removable.
5. **Install Door Frame:** Attach the door frame to the designated side rail. Ensure the catch mechanism operates smoothly. The door is removable.

6. **Final Tightening:** Double-check all screws and connections to ensure the bed frame is stable and secure.

Operating Features

Montessori Design with Fence and Door:

This floor bed features a Montessori-inspired design with four guardrails and a small, functional door. The guardrails provide a secure sleeping space, and the door can be opened and closed, allowing for easy access and promoting independence for children. The fence height is 16 inches.

Removable Slats:

The bed includes 8 plywood slats that provide mattress support. These slats are removable, offering flexibility for various mattress types or preferences. No box spring is needed.

Care and Maintenance

To maintain the quality and appearance of your Bellemave floor bed, follow these simple care instructions:

- **Cleaning:** Wipe the bed frame with a dry cloth to remove dust and debris. Avoid using harsh chemicals or abrasive cleaners, as these can damage the finish.
- **Inspection:** Periodically inspect all hardware and connections. Tighten any loose screws to ensure the bed remains stable and safe.
- **Environmental Conditions:** Avoid prolonged exposure to direct sunlight or extreme humidity, which can cause warping or fading of the wood.

Troubleshooting

- **Bed feels wobbly after assembly:** Ensure all screws and bolts are fully tightened. Re-check each connection point according to the assembly instructions.
- **Door mechanism is stiff or not closing properly:** Check for any obstructions in the latch area. Ensure the door frame is aligned correctly during assembly. Lubrication with a non-toxic, child-safe lubricant may help if the latch is stiff.
- **Slats do not fit or seem loose:** Verify that the correct slats are being used and that they are properly seated in their designated positions. Ensure the bed frame itself is correctly assembled and squared.
- **Missing parts:** Refer to the 'Package Contents' section. If parts are missing, contact Bellemave customer support immediately.
