Bellemave Twin Floor Bed with Slats and Center Support Bar, Montessori Bed with Fence and Door, Natural - Instruction Manual

1. Introduction

This manual provides comprehensive instructions for the assembly, operation, and maintenance of your Bellemave Twin Floor Bed with Slats and Center Support Bar, Montessori Bed with Fence and Door. Please read all instructions carefully before assembly and use to ensure safe and proper functionality.
The Bellemave Twin Floor Bed is designed to provide a secure and accessible sleeping environment for children, featuring a low-profile design, protective fence, and an operable door. It is constructed from high-quality pine wood and MDF for durability.

2. Safety Information

WARNING: Improper assembly, use, or maintenance of this bed frame could result in injury or damage. Always follow the assembly instructions provided, ensuring a secure connection of all components. Do not exceed the recommended weight capacity of 250 pounds. Take care when handling the center support bar and slats, as improper use could lead to instability or collapse. Be cautious when opening and closing the small door on the fence, as it may present a pinch or entrapment hazard. Regularly inspect the bed frame for any signs of wear or damage, and address any issues promptly to maintain the safety and integrity of the bed frame.
This product is certified by the Children's Product Certificate (CPC).

3. Package Contents

Before beginning assembly, verify that all components and hardware are present. Refer to the assembly instruction booklet for a detailed list of parts.

Note: Assembly tools required (e.g., screwdriver) are not included.

4. Setup and Assembly

Assembly of the Bellemave Twin Floor Bed is designed to be straightforward. Follow the detailed, step-by-step instructions provided in the included manual. It is recommended to lay out all pieces on a soft surface to prevent scratches before assembly.
The assembly process typically takes approximately 15-30 minutes with two people. An Allen key is provided, but a power drill can expedite the process for securing screws, if available.

Assembly Overview:

1. Identify and separate all components and hardware according to the parts list.
2. Attach the support side rails and frames using the designated screws and brackets.
3. Secure the door frame and legs to the main structure.
4. Install the plywood slats and center support bar to form the mattress base.
5. Ensure all connections are tightened securely before use.

5. Operating Instructions

Mattress Placement:

The bed is designed for a Twin size mattress. No box spring is required due to the integrated plywood slats and center support bar. The recommended mattress thickness is 4 inches. The slats are removable if needed for specific mattress types or preferences.

Fence and Door Functionality:

The bed features a four-sided guardrail design for stability and safety. A small, operable door is integrated into one side, allowing for easy entry and exit. This door can be opened and closed as needed and is also removable for greater accessibility or as the child grows.
