› XTUFF Solid Brass Padlock with 2.5 Inch Long Shackle, Keyed Alike (2 Pack) - User Manual

## XTUFF BPE40L2PACK

# XTUFF Solid Brass Padlock User Manual

Model: BPE40L2PACK

## INTRODUCTION

Thank you for choosing the XTUFF Solid Brass Padlock. This manual provides detailed instructions for the proper use, maintenance, and care of your new padlocks. Please read this guide thoroughly before using the product to ensure optimal performance and security.

## PRODUCT OVERVIEW

The XTUFF Solid Brass Padlock is designed for both indoor and outdoor security applications. It features a robust construction with a solid brass body and a hardened steel shackle, engineered for durability and resistance against tampering.

### Key Features:

- **Solid Brass Body:** Provides excellent corrosion resistance, suitable for various weather conditions.
- **Hardened Steel Long Shackle:** Offers enhanced cut resistance and allows for versatile usage across different items.
- **Keyed Alike Mechanism:** All included keys operate both padlocks, simplifying key management.

- **Dual Locking Lever:** Enhances security by providing superior pick resistance.
- **Beveled Lock Body Corners:** Designed to minimize scratching on surfaces.

## SETUP

Your XTUFF Solid Brass Padlocks come ready for immediate use. No assembly is required.

1. **Unpack:** Carefully remove the padlocks and keys from their packaging.
2. **Identify Keys:** You will receive 6 identical keys for the two padlocks. Each key works with both locks.
3. **Test Operation:** Insert a key into the keyhole of each padlock and turn it to ensure smooth locking and unlocking action.

## Two Padlocks Six Keys

Image: Two XTUFF padlocks displayed with six identical keys, emphasizing the convenience of the keyed alike system.

### OPERATING INSTRUCTIONS

#### Locking the Padlock:

1. Ensure the shackle is fully open.
2. Position the shackle through the items you wish to secure.
3. Press the shackle firmly into the padlock body until it clicks into place.
4. Pull on the shackle to confirm it is securely locked.

#### Unlocking the Padlock:

1. Insert one of the provided keys into the keyhole.
2. Turn the key clockwise until the shackle springs open.

3. Remove the key.

*Note:* Due to the keyed alike feature, any of the 6 provided keys will operate both padlocks in the pack.

## Wide Application

Image: Examples of wide applications for the XTUFF padlock, including gates, chains, lockers, and storage units.

## MAINTENANCE

Regular maintenance will prolong the life and smooth operation of your XTUFF padlocks.

- **Cleaning:** Wipe the padlock body and shackle with a clean, dry cloth periodically to remove dirt and grime. For outdoor use, clean more frequently.
- **Lubrication:** If the key mechanism feels stiff or sticky, apply a small amount of graphite lubricant or a silicone-based spray lubricant into the keyhole. Avoid oil-based lubricants as they can attract dust and debris.
- **Inspection:** Periodically check the shackle and body for any signs of damage or wear.

## TROUBLESHOOTING

Key is difficult to insert or turn:

- Ensure the key is fully inserted and oriented correctly.
- Apply a small amount of graphite lubricant into the keyhole.
- Check the key for any bends or damage. Use an undamaged key if available.

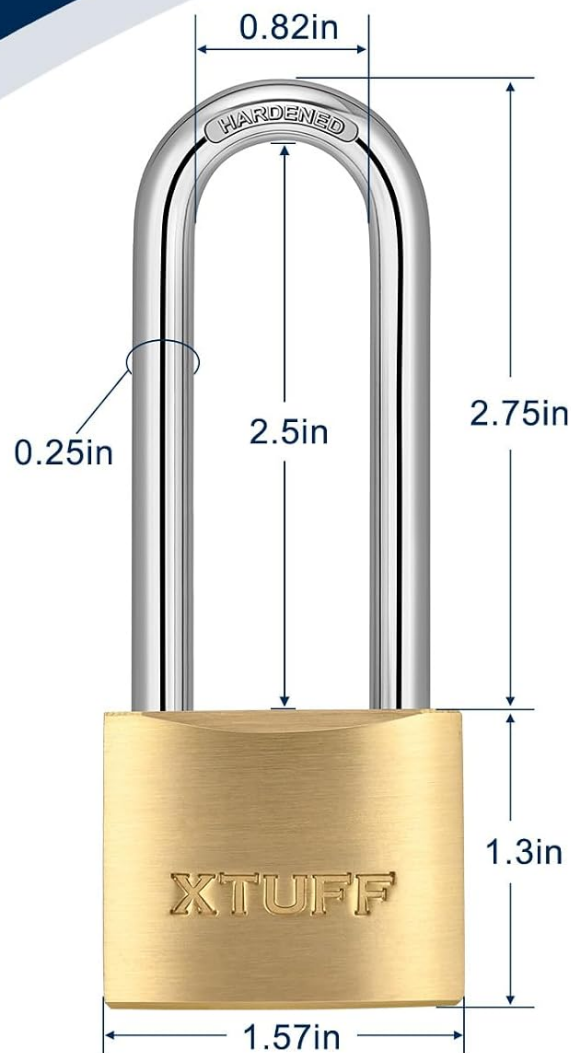

Shackle is stiff or won't close:

- Ensure the key mechanism is fully disengaged (unlocked position) before attempting to close the shackle.
- Clean any debris from around the shackle entry points on the padlock body.
- Apply a small amount of lubricant to the shackle legs where they enter the padlock body.

SPECIFICATIONS

| Feature                        | Detail                    |
