## Arama A600

# Arama USB Headset A600 Instruction Manual

Model: A600

## 1. PRODUCT OVERVIEW

The Arama USB Headset A600 is a wired monaural headset designed for clear communication in professional and personal environments. It features a noise-cancelling microphone and convenient in-line controls, making it suitable for call centers, home offices, online classes, and virtual meetings.

The Arama A600 USB Headset, designed for stable connection and clear communication.

## 2. PACKAGE CONTENTS

Verify that all items are present in the package:

- 1 x USB A Headset
- 1 x Type-C (USB C) Conversion Cable
- 1 x User Manual

Contents of the Arama A600 USB Headset package, including the headset, USB-C adapter, and user manual.

### 3. KEY FEATURES

---

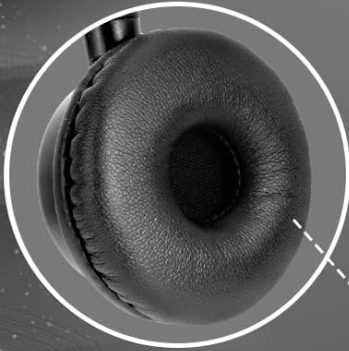

- **Crystal-Clear Audio:** Optimized for crisp highs and distortion-free clarity, ideal for voice communication.
- **Rotating Noise-Cancelling Microphone:** Minimizes background noise for clear conversations. The microphone is rotatable for use on either side.
- **All-Day Comfort:** Features skin-friendly ear pads and a super lightweight design (approximately 6 ounces) for extended wear.
- **Handy In-line Controls:** Easy access to volume adjustment and microphone mute functions.
- **Durable Design:** Built with sturdy materials for long-lasting performance.
- **USB Connectivity:** Provides a stable and efficient connection to compatible devices.

# Ergonomics Flexible Design

Extremely light, only 4 ounce, barely feel the presence even wear all day.

## Black Minimalist Design & Super Lightweight

The Arama A600 headset features a minimalist black design and is super lightweight for comfortable wear.

### 4. SETUP AND CONNECTION

The Arama USB Headset A600 offers plug-and-play functionality, requiring no additional drivers for most operating systems.

1. **Connect to USB-A Port:** Plug the headset's USB-A connector directly into an available USB-A port on your computer (PC, laptop) or compatible device.
2. **Connect to USB-C Port (with adapter):** If your device only has USB-C ports, attach the included Type-C (USB C) conversion cable to the headset's USB-A connector, then plug the Type-C end into your device's USB-C port.
3. **System Recognition:** Your operating system should automatically detect and configure the headset. You may need to select the headset as the default audio input and output device in your system's sound settings or within your communication application (e.g., Zoom, Skype, Microsoft Teams).

### USB Connectivity

No interrupt, no delay  
More stable, more efficient

The Arama A600 USB Headset provides stable and efficient USB connectivity for uninterrupted communication.

### 5. OPERATING THE HEADSET

The headset features an in-line control unit for easy management of audio functions.

- **Volume Up (+):** Press to increase the listening volume.
- **Volume Down (-):** Press to decrease the listening volume.
- **Microphone Mute:** Press the mute button to toggle the microphone on or off. A red LED indicator typically signifies that the microphone is muted.

## 6. CARE AND MAINTENANCE

---

To ensure the longevity and optimal performance of your Arama USB Headset A600, follow these care guidelines:

- **Cleaning:** Gently wipe the ear pads and headset surfaces with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the headset in a clean, dry place away from extreme temperatures and direct sunlight.
- **Cable Management:** Avoid sharp bends or excessive pulling on the cable to prevent internal damage.
- **Microphone Care:** Handle the microphone boom gently. Do not force it beyond its intended rotation limits.

## 7. TROUBLESHOOTING

---

If you encounter issues with your headset, refer to the following common solutions:

- **No Sound/Microphone Not Working:**
  - Ensure the headset is securely plugged into the USB port (or via the Type-C adapter).
  - Check the in-line controls to ensure the volume is not at minimum and the microphone is not muted.
  - Verify that the Arama headset is selected as the default playback and recording device in your computer's sound settings and within your communication application.
  - Try plugging the headset into a different USB port or a different computer to rule out port or system issues.
- **Poor Audio Quality:**
  - Adjust the microphone position closer to your mouth (approximately 1-2 inches).
  - Ensure the microphone foam cover is properly installed.
  - Check for any software conflicts or background applications that might be affecting audio processing.
- **Headset Uncomfortable:**
  - Adjust the headband for a comfortable fit. The headband is flexible.
  - Ensure the ear pad sits correctly on your ear.

## 8. TECHNICAL SPECIFICATIONS

---

Specification	Detail
