HOOBRO BF21XJ01

HOOBRO BF21XJ01 Vertical 6-Tier Shoe Rack Instruction Manual

Model: BF21XJ01 | Brand: HOOBRO

INTRODUCTION

Thank you for choosing the HOOBRO BF21XJ01 Vertical 6-Tier Shoe Rack. This manual provides essential information for the safe assembly, proper use, and maintenance of your new shoe storage organizer. Please read these instructions carefully before assembly and retain them for future reference.

SAFETY INFORMATION

WARNING: Failure to follow these safety instructions may result in injury or damage to the product.

- Always install the anti-tip kit to secure the product against the wall before use. This prevents accidental tipping, especially in households with children or pets.
- Do not allow children to climb on or play with the product.
- Ensure all connections are securely fastened during assembly.
- Do not exceed the maximum weight capacity of 10 kg (22 lb) per shelf.
- Place the shoe rack on a flat, stable surface to prevent wobbling.

PACKAGE CONTENTS

Before beginning assembly, please verify that all parts listed below are present and undamaged. If any parts are missing or damaged, please contact customer support.

- 6 x Shelf Panels (Engineered Wood, Rustic Brown)
- Vertical Support Pipes (Metal, Black)
- Anti-Tip Kit (Strap, Screws, Wall Anchors)
- 4 x Bottom Non-slip Pads
- Assembly Hardware (Twist-lock connectors)
- Instruction Manual

SETUP AND ASSEMBLY INSTRUCTIONS

Assembly of this shoe rack is designed to be straightforward and requires no additional tools due to its unique twist-lock structure. Follow these steps for quick and easy setup.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches.
2. **Attach Non-slip Pads:** Secure the four non-slip pads to the bottom corners of the lowest shelf panel.
3. **Assemble First Tier:** Insert the vertical support pipes into the designated holes on the lowest shelf panel. Twist to lock them securely in place.
4. **Add Subsequent Tiers:** Place the next shelf panel onto the top of the installed support pipes. Align the holes and twist to lock. Repeat this process for all remaining shelf panels and support pipes, working your way upwards.
5. **Install Anti-Tip Kit:** Once the rack is fully assembled, position it in its desired location. Attach the anti-tip strap to the top rear of the rack and secure it to the wall using the provided screws and wall anchors. Ensure it is firmly anchored to prevent tipping.

Anti-Tip Kit

One more step keeps you moreassured during use.

OPERATING INSTRUCTIONS AND USAGE

The HOOBRO BF21XJ01 shoe rack is designed for versatile storage in various small spaces.

- **Shoe Storage:** Each tier can hold approximately one pair of adult shoes, depending on shoe size and style. The rack is suitable for flat shoes, low-cut boots, and mid-length boots.
- **Adjustable Spacing:** One shelf is designed with a larger spacing of 24.3 cm (9.6 inches) to accommodate taller items like high-top sneakers or small boots. Other shelves have a spacing of 17 cm (6.7 inches).
- **Versatile Use:** Beyond shoes, this organizer can function as a display shelf for small items such as books, photo albums, plants, or decorative objects.
- **Placement:** Its narrow design (28 x 28 x 100.3 cm) makes it ideal for entryways, closets, hallways, bedrooms, or dorm rooms where space is limited.

MAINTENANCE

To ensure the longevity and appearance of your HOOBRO shoe rack, follow these maintenance guidelines:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, which can damage the finish.
- **Spills:** Immediately wipe up any liquid spills to prevent water damage to the engineered wood.
- **Inspection:** Periodically check all connections and the anti-tip kit to ensure they remain secure. Tighten if necessary.
- **Environment:** Avoid placing the rack in direct sunlight or in areas with extreme temperature fluctuations or high humidity, as this can affect the wood material.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Rack is wobbly or unstable.	Uneven floor surface; loose connections; anti-tip kit not installed.	Ensure the rack is on a flat surface. Check and tighten all twist-lock connections. Install the anti-tip kit securely to the wall.
Parts do not fit together.	Incorrect orientation of parts; manufacturing defect.	Review the assembly instructions to ensure parts are oriented correctly. If parts are defective, contact customer support.
Missing components.	Packaging error.	Check all packaging materials thoroughly. If still missing, contact customer support with your purchase details.
