

## SOLPEX 9363

# SOLPEX Solar Fence Lights Outdoor: User Manual

Model: 9363

## INTRODUCTION

---

Thank you for choosing SOLPEX Solar Fence Lights. These outdoor lights are designed to provide versatile and energy-efficient illumination for your outdoor spaces. Featuring multiple color modes and a durable, waterproof design, they are ideal for enhancing the ambiance of fences, decks, patios, and more. This manual provides essential information for proper setup, operation, and maintenance to ensure optimal performance and longevity of your lights.

## PRODUCT FEATURES

---

- **Colorful Lighting & Multiple Modes:** Offers 9 distinct lighting modes, including Warm White, Red, Green, Blue, Yellow, and Cyan, along with 2 RGB cycle modes (smooth changing and flash changing). Warm White is suitable for everyday lighting, while RGB modes provide vibrant colors for festive decorations or special occasions.
- **High Efficiency & Energy Saving:** Equipped with upgraded focused LEDs and advanced reflective lens technology, providing up to 60 lumens of brightness with wider coverage. High-efficiency photovoltaic panels convert sunlight into electricity 20% more effectively, ensuring consistent, reliable illumination.
- **Waterproof & Durable with Auto ON/OFF:** Constructed from high-quality ABS material with an IP65 waterproof rating. Designed to withstand various harsh weather conditions, including rain, snow, and extreme temperatures. Features automatic charging and will illuminate for at least 10 hours after 5-6 hours of direct sunlight exposure.
- **Wide Range of Applications:** Suitable for illuminating various outdoor areas such as fences, steps, stairs, decks, balconies, walls, patio, and pool areas.

## PACKAGE CONTENTS

---

Each package of SOLPEX Solar Fence Lights (Model 9363) includes:

- 8 x SOLPEX Solar Fence Lights (Black)

- Mounting Hardware (screws, plastic expansion screws)
- User Manual

## SETUP & INSTALLATION

---

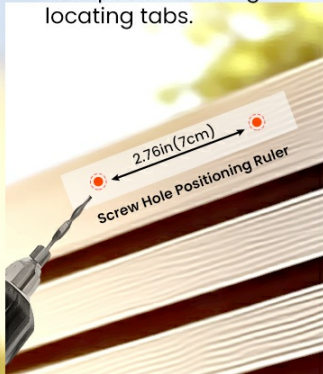

Follow these steps for easy installation of your SOLPEX Solar Fence Lights:

1. **Prepare the Lights:** Before installation, ensure the lights are in the 'ON' position. Long press and hold the 'ON' button located on the light unit.
2. **Choose Mounting Location:** Select a flat surface (e.g., fence, wall, deck railing) that receives 5-6 hours of direct sunlight daily for optimal charging.
3. **Mark & Drill Holes:** Use the provided screw hole positioning ruler (if included) or the light unit itself to mark the positions for drilling. Drill holes appropriate for the plastic expansion screws.
4. **Insert Hardware:** Insert the plastic expansion screws into the drilled holes, then insert the screws, leaving approximately 2 millimeters exposed.

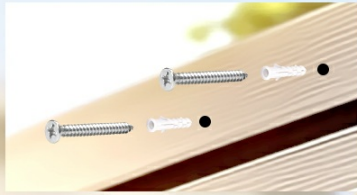

5. **Hang the Lights:** Align the mounting slots on the back of the light with the exposed screws and slide the light down to secure it.

## Easy to install

- 1 Confirm the mounting hole positions using the locating tabs.

- 2 Assemble screws 5-8mm.

- 3 Long press the button (2s) to turn on the light

- 4 Hang up the light.

## OPERATING INSTRUCTIONS

---

Your SOLPEX Solar Fence Lights are designed for simple, automatic operation:

- **Automatic ON/OFF:** Once installed and charged, the lights will automatically turn on at dusk and turn off at dawn.
- **Changing Light Modes:** Use the button on the light unit to cycle through the available lighting modes. A short press will change the color or mode. The available modes include Warm White, Red, Green, Blue, Yellow, Cyan, and two RGB cycle modes (smooth changing and flash changing).
- **Power ON/OFF:** A long press of the button will turn the light unit completely off or on.

# 9 FIXED LIGHT COLOR MODES

These cool lighting modes are perfect for holidays and parties, creating a festive atmosphere through dynamic lighting.

## MAINTENANCE

To ensure the longevity and optimal performance of your solar fence lights, consider the following maintenance tips:

- **Clean Solar Panels:** Regularly wipe the solar panels with a soft, damp cloth to remove dust, dirt, and debris. A clean panel ensures maximum sunlight absorption for efficient charging.
- **Clear Obstructions:** Ensure that no objects, such as leaves, branches, or shadows from nearby structures, obstruct the solar panel from receiving direct sunlight.
- **Battery Replacement:** If the lights' performance significantly degrades over time, the internal battery may need replacement. Refer to the product's specifications or contact customer support for guidance on appropriate battery types and replacement procedures.

## TROUBLESHOOTING

---

Problem	Solution
The lights are not turning on in the evening.	<ul style="list-style-type: none"><li>• Ensure the switch is in the 'ON' position.</li><li>• Clean the solar panel to remove dirt or debris.</li><li>• Make sure no objects or shadows obstruct sunlight from reaching the solar panel.</li><li>• Keep the lights away from other direct light sources.</li></ul>
The lights appear dim or run for a shorter duration than expected.	<ul style="list-style-type: none"><li>• Ensure the lights receive 5-6 hours of direct sunlight daily.</li><li>• If applicable, toggle the switch back and forth several times.</li></ul>
The lights are flickering.	<ul style="list-style-type: none"><li>• If applicable, toggle the switch back and forth several times.</li><li>• If needed, replace the battery (refer to appropriate methods, e.g., unscrewing).</li></ul>

## SPECIFICATIONS

---

- **Brand:** SOLPEX
- **Model Number:** 9363
- **Color:** Black
- **Number of Items:** 8
- **Power Source:** Solar Powered
- **Light Source Type:** LED
- **Number of Light Sources:** 2
- **Additional Features:** Color Changing (9 fixed colors & 2 RGB cycle modes)
- **Water Resistance Level:** IP65 Waterproof
- **Material:** Acrylonitrile Butadiene Styrene (ABS)
- **Finish Type:** Painted
- **Mounting Type:** Deck Mount, Surface Mount
- **Switch Type:** Push Button
- **Control Method:** Push Button
- **Item Weight:** 1.21 Kilograms
- **Indoor Outdoor Usage:** Outdoor
- **Specific Uses:** Fence, Patio, Yard, Steps, Stairs, Decks, Balcony, Wall, Porch
