## OPERATING INSTRUCTIONS

### 1. Power On/Off:

The battery pack automatically powers on when connected to the VR headset and begins charging. To check the battery level, briefly press the power button on the battery pack. The LED digital display will show the current percentage.

### 2. Checking Battery Level:

The touch-sensitive LED digital display on the battery pack shows the remaining power percentage. This allows you to monitor your extended playtime.

### 3. Recharging the Battery Pack:

When the battery pack's charge is low, detach it from the head strap. Use a standard USB-C charging cable (not included) to recharge the battery pack. The LED display will indicate charging progress.

## MAINTENANCE

---

- **Cleaning:** Use a soft, dry cloth to clean the head strap and battery pack. Avoid using abrasive cleaners or solvents.
- **Storage:** Store the head strap and battery pack in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Recharge it regularly, even if not in use for extended periods.

## TROUBLESHOOTING

---

- **Battery not charging:** Ensure the USB-C cable is securely connected to both the battery pack and a power source. Verify the power source is functional.
- **Battery not powering headset:** Check that the battery pack is fully charged and correctly attached to the head strap. Ensure the integrated USB-C cable is firmly plugged into the VR headset.
- **Loose fit:** Adjust the rear dial and top strap to achieve a secure and comfortable fit.
