## INTRODUCTION

The PRUNUS J-555 Pocket Radio is a compact and versatile AM/FM radio designed for portability and ease of use. It features dual power options, including a built-in rechargeable battery and support for AAA batteries, ensuring continuous operation. Equipped with a clear speaker, headphone jack, telescopic antenna for enhanced reception, and a convenient built-in flashlight, this radio is suitable for various indoor and outdoor activities. Its intuitive controls make it accessible for users of all ages.

## PRODUCT FEATURES

- Dual Power Options:** Supports both built-in 800mAh rechargeable battery (USB-C charging) and 2x AAA batteries (not included) for flexible power.
- Ultra Mini Design:** Compact (3.9 x 2.3 x 1.0 inches) and lightweight (3.6 oz) with a lanyard and back clip for easy portability.

- **Easy to Use:** Features an AM/FM switch, rotary tuning and volume knobs, and a tuning indicator light for simple operation.
- **Outstanding Reception:** 7.7-inch telescopic antenna and built-in DSP chip ensure stable signal reception across FM (87-108 MHz) and AM (520-1730 KHz) bands.
- **Clear Audio:** Built-in magnetic speaker provides clear sound. Includes a 3.5mm headphone jack for private listening.
- **Built-in Flashlight:** Provides convenient illumination in low-light conditions.

## WHAT'S IN THE BOX

---

- PRUNUS J-555 Pocket Radio x 1
- USB-C Charging Cable x 1
- Lanyard x 1
- Owner's Manual x 1
- Quick Start Guide x 1

## SETUP

---

### 1. Power Options and Initial Charge

The PRUNUS J-555 radio offers two power sources: an internal rechargeable lithium battery and external AAA batteries. Before first use, it is recommended to fully charge the built-in battery.

#### USB-C Charging:

Connect the provided USB-C charging cable to the radio's USB-C port and plug the other end into a compatible USB power adapter (not included) or a computer's USB port. The "CHGR" indicator light will illuminate during charging and turn off when fully charged.

## **AAA Battery Installation:**

Open the battery compartment cover on the back of the radio. Insert two AAA batteries (not included), ensuring correct polarity (+/-). Close the battery compartment cover securely.

**Power Selector Switch:** Inside the battery compartment, there is a switch to select the power source. Slide the switch to the "Lithium Battery" position to use the built-in rechargeable battery, or to the "Alkaline Battery" position to use the AAA batteries. If the rechargeable battery runs out while AAA batteries are installed and the switch is set to "Alkaline Battery", the radio will automatically switch to AAA power.

## OPERATING INSTRUCTIONS

### 1. Power On/Off and Band Selection

Locate the "OFF/FM/AM" switch on the side of the radio. Slide it to "FM" for FM radio or "AM" for AM radio. To turn off the radio, slide the switch to "OFF".

### 2. Tuning to a Station

Extend the telescopic antenna for optimal reception, especially for FM stations. Use the rotary "Tuning Knob" on the side of the radio to scan for stations. The "TUNE" indicator light will illuminate green when a stable frequency is found, indicating good reception.

### 3. Volume Control

Adjust the volume using the rotary "Volume Knob" located on the side of the radio.

#### 4. Headphone Use

For private listening, plug any standard 3.5mm headphones (not included) into the headphone jack on the top of the radio. The internal speaker will automatically mute when headphones are connected.

## IMMERSIVE SOUND EXPERIENCE

With 3.5mm headphones support,  
perfect for private moments.

## MAINTENANCE

- Cleaning:** Use a soft, dry cloth to clean the exterior of the radio. Do not use abrasive cleaners or solvents.
- Storage:** When not in use for extended periods, store the radio in a cool, dry place. If using AAA batteries, remove them to prevent leakage.
- Battery Care:** For the built-in rechargeable battery, avoid fully discharging it frequently to prolong its lifespan. Charge it regularly, even if not in constant use.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
No power/Radio not turning on	Battery depleted or power selector switch incorrect.	Charge the built-in battery via USB-C. If using AAA batteries, ensure they are new/charged and inserted correctly. Check the power selector switch inside the battery compartment is set to the correct battery type.
Poor reception/Static	Antenna not extended, weak signal, or interference.	Fully extend the telescopic antenna. Try repositioning the radio to find a stronger signal. Avoid areas with strong electromagnetic interference.
No sound from speaker/headphones	Volume too low, headphones not fully inserted, or faulty headphones.	Increase the volume using the rotary knob. Ensure headphones are fully plugged into the 3.5mm jack. Test with different headphones if possible.
Flashlight not working	Flashlight switch off or battery depleted.	Ensure the flashlight switch is in the "ON" position. Charge the radio's built-in battery.

## SPECIFICATIONS

---
