SETUP AND ASSEMBLY

Follow these steps to correctly set up your ice table:

1. **Unfold the Table Frame:** Carefully unfold the main table frame and extend the legs until they lock securely into place. Ensure all locking mechanisms are engaged for stability.

PORTABLE & FOLDABLE

Foldable design minimizes storage space, it's lightweight and easy to transport

OPERATING INSTRUCTIONS

Using the Ice Basin

The 3-inch deep basin is designed to hold ample ice, keeping your beverages and food items cool and fresh for extended periods. Simply fill the basin with ice and arrange your desired items.

Utilizing the Upper Shelf

The upper shelf provides a convenient elevated surface for serving dry snacks, displaying glassware, or holding additional items that do not require chilling.

Drain Functionality

The adjustable bottom drainpipe allows for quick and efficient water drainage after use. Position the hose to direct melted ice water away from your event area.

Portability and Storage

The table's folding design allows for compact storage and easy transport. Simply fold down the legs and detach any accessories for convenient portability using the side handles.

MAINTENANCE

Proper care will ensure the longevity of your YITAHOME Two-Tier Ice Table:

- **Cleaning:** The high-density polyethylene tabletop and frame can be easily cleaned by wiping with a damp or dry cloth as necessary. For stubborn stains, a mild soap solution can be used.
- **Storage:** When not in use, fold the table and store it in a dry, protected area to prevent prolonged exposure to extreme weather conditions.
- **Weather Resistance:** The table is designed to withstand cold, heat, and corrosion. However, prolonged exposure to harsh elements may affect its appearance over time.
- **Indoor Use:** When using indoors, ensure the protective foot pads are securely attached to the table legs to prevent scratches on flooring surfaces.

TROUBLESHOOTING

This section addresses common issues you might encounter:

Issue	Possible Cause	Solution
Table feels unstable or wobbly.	Legs not fully extended or locked; uneven surface.	Ensure all legs are fully extended and their locking mechanisms are engaged. Move the table to a flat, even surface.
Water leakage from drain.	Drain plug or gasket not properly seated or damaged.	Check that the drain plug and gasket are securely installed and tightened. Inspect the gasket for any damage and replace if necessary.
Missing or damaged components upon arrival.	Shipping damage or packaging error.	Immediately contact YITAHOME customer support with your order details for assistance and replacement parts.
Scratches on indoor flooring.	Foot pads not used or dislodged.	Always ensure the protective foot pads are securely attached to the table legs when using the table on sensitive indoor surfaces.
