

## ULTIMEA U2621

# ULTIMEA Aura A60 7.1ch Dolby Atmos Sound Bar

Model: U2621

## 1. INTRODUCTION

The ULTIMEA Aura A60 is a 7.1-channel Dolby Atmos sound bar system designed to deliver an immersive home theater audio experience. It features a main sound bar, a wired subwoofer, and four surround speakers (two front, two rear) to create a dynamic sound field. This manual provides detailed instructions for setup, operation, and troubleshooting to ensure optimal performance of your sound system.

## 3. SETUP

### 3.1 Physical Placement

For the best 7.1-channel surround sound experience, position the sound bar centrally below your TV. Place the wired subwoofer in a corner or near the sound bar. The two wired front surround speakers should be placed to the left and right of your TV, slightly in front of your listening position. The two wireless rear surround speakers should be placed behind your listening position, to the left and right, for optimal sound dispersion. Recommended room size: 108 to 270 sq ft (10-25 sq m).

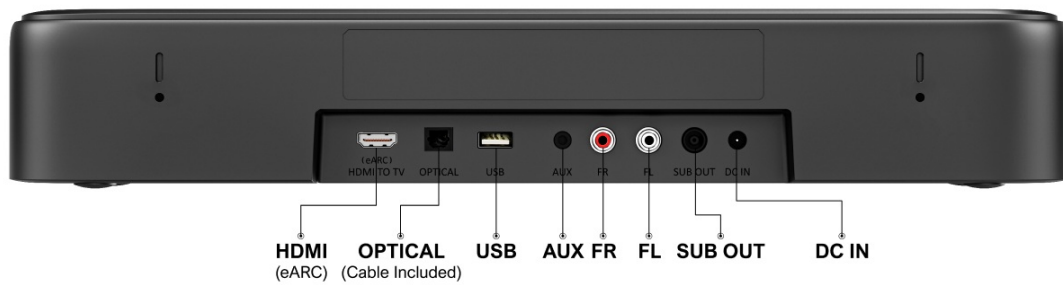

*Image: Recommended layout for the 7.1ch sound system in a home theater environment.*

## 3.2 Connecting Components

Identify the ports on the back of the sound bar:

## Setup Like a Breeze

Streamline your life.

*Image: Rear panel of the sound bar with labeled ports.*

### 1. Subwoofer Connection:

Connect the wired subwoofer to the 'SUB OUT' port on the sound bar using the provided subwoofer cable. Plug the sound bar's power adapter into the 'DC IN' port and then into a power outlet.

### 2. Front Surround Speakers Connection:

Connect the Front Left (FL) and Front Right (FR) surround speakers to their respective ports on the sound bar using the provided 2m cables. Ensure the correct color interfaces are matched.

### 3. Rear Surround Speakers Connection:

Connect the two rear surround speakers to each other using the 6m rear surround cable. Plug the rear speaker power adapter into the 'DC IN' port of the right rear speaker and then into a power outlet. The rear speakers will automatically pair with the sound bar when powered on. The indicator light on the right rear speaker will remain steady upon successful pairing.

## 4. CONNECTING TO YOUR TV

The Aura A60 offers multiple connection options for your TV:

### 4.1 HDMI eARC (Recommended)

HDMI eARC provides the highest quality audio transmission, supporting lossless sound with Dolby Atmos.

1. Insert one end of the provided HDMI eARC cable into your TV's HDMI eARC port.
2. Insert the other end of the HDMI eARC cable into the 'HDMI eARC' port on the back of the sound bar.
3. On your sound bar's remote control, press the 'eARC' button to select the eARC input mode.

# 01

Insert your HDMI cable into TV's "HDMI eARC" port

# 02

Insert another end of cable into soundbar's eARC port

HDMI eARC Cable (Included)

# 03

Press "eARC" button and select "eARC" mode

Image: HDMI eARC connection steps.

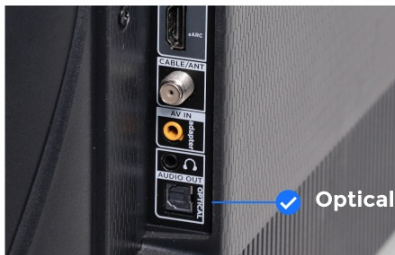

## 4.2 Optical Connection

The Optical connection offers a good digital audio experience.

1. Remove the protective caps from the provided digital optical cable.
2. Align one end of the plug with your TV's optical out port and insert it carefully.
3. Align the other end of the plug with the 'OPTICAL' in port on the back of your sound bar. Firmly push the plug into the port until you hear or feel a click.
4. On your sound bar's remote control, press the 'OPT' button to select the Optical input mode.

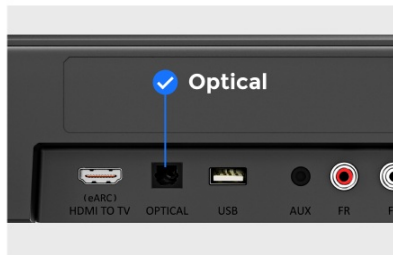

# 01

Remove the caps from the optical cable and insert it into the "OPT" port of your TV.

# 02

Insert another end of cable into soundbar's OPT port.

Digital Optical Cable (Included)

# 03

Press "OPT" button and select "OPT" mode

Image: Optical connection steps.

## 4.3 AUX Connection

For devices with an analog audio output, use the AUX connection.

1. Insert one end of a 3.5mm AUX cable (not included) into your TV's AUDIO Out port.
2. Insert the other end of the 3.5mm AUX cable into the 'AUX' port on the back of the sound bar.
3. On your sound bar's remote control, press the 'AUX' button to select the AUX input mode.

## 4.4 Bluetooth Connection (Smartphone/TV)

Connect your smartphone or TV wirelessly via Bluetooth.

1. On your sound bar's remote control, press the 'BT' button to select Bluetooth input mode. The sound bar display will show 'BT'.
2. On your smartphone or TV, go to Bluetooth settings and search for 'Aura A60'.
3. Select 'Aura A60' to pair. You will hear a 'Bluetooth Connected' tone from the sound bar upon successful pairing.

## 5. OPERATING INSTRUCTIONS

### 5.1 Remote Control Functions

The included remote control allows for comprehensive control over your sound system, including volume, input selection, and sound adjustments.

Image: ULTIMEA Aura A60 remote control.

- **Input Selection:** Buttons for eARC, OPT, AUX, BT, USB.
- **Volume Control:** '+' and '-' buttons.
- **Sound Adjustments:** Dedicated buttons for BASS MX, MIDRANGE, and TREBLE levels.
- **EQ Presets:** MOVIE, MUSIC, VOICE, SPORT, GAME, NIGHT modes.
- **SURROUND:** Adjust surround sound level.
- **PROMPT TONE:** Adjust prompt tone level.

### 5.2 App Control

Download the ULTIMEA Smart App to unlock advanced audio tuning features and control your sound bar from your smartphone.

Image: ULTIMEA Smart App interface.

- **10-Band Equalizer:** Fine-tune audio frequency response to your preference.
- **121 Preset EQ Matrices:** Choose from a wide range of expert-tuned presets for various genres and content types.
- **Customization:** Create and save your own personalized sound profiles.

## 6. TROUBLESHOOTING

### 6.1 Still No Sound?

If you are experiencing no sound after setup, consider the following:

- **Check Surround Speaker Link:** The right rear speaker is factory-paired. If there is no sound from the surround speakers, you may need to re-pair them manually.
- **TV Audio Output Settings:** Ensure your TV's audio output is correctly configured to send sound to the sound bar. Navigate to your TV's settings (e.g., Sound -> Sound Output) and select the appropriate output (e.g., Receiver (HDMI), Optical, or Bluetooth Speaker List).
- **Digital Audio Format:** Some TVs require specific digital audio format settings. Check your TV's settings (e.g., Sound -> Digital Audio Format) and try 'Auto' or 'PCM'.

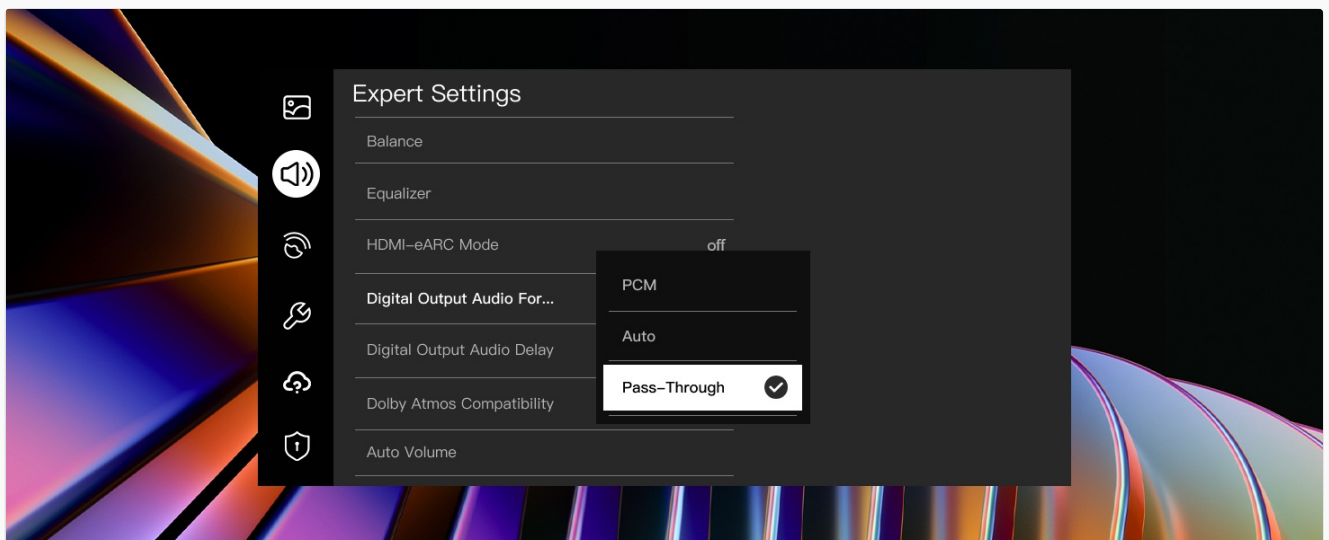

Image: Example TV audio output settings menu.

## 6.2 Re-pairing Rear Surround Speakers

If your rear surround speakers lose connection or do not pair automatically:

1. Press and hold the 'SURROUND' button on the sound bar remote control for 5 seconds. The sound bar display will show 'SUR' and flash.
2. On the right rear surround speaker, press and hold the 'PAIR' button for 5 seconds. The indicator light will flash quickly.
3. After successful pairing, the indicator light on the right rear speaker will remain steady.
