## 5. OPERATING INSTRUCTIONS

### 5.1 Retracting and Extending the Canopy

The daybed features a retractable canopy for adjustable sun protection. To extend the canopy, gently pull it forward until it reaches the desired position. To retract, push it back towards the rear of the daybed. Ensure smooth movement and avoid forcing the mechanism.

### 5.2 Adjusting the Sofa Pier / Ottoman

The versatile sofa pier can be used as an additional seating section, an ottoman, or by lifting its surface, it can function as a coffee table. To adjust, carefully lift or lower the top section of the pier to your desired height and lock it into place if a locking mechanism is present.

## 6. MAINTENANCE AND CARE

## 6.1 Wicker Frame Care

- Clean the PE wicker frame with a soft cloth, mild soap, and water. Rinse thoroughly and allow to air dry.
- Avoid using harsh chemicals, abrasive cleaners, or stiff brushes, as these can damage the wicker.
- For prolonged outdoor exposure, consider using a protective cover when not in use, especially during off-season.

## 6.2 Cushion Care

- The cushion covers are made of polyester and are removable. They can be hand-washed or machine-washed on a gentle cycle with cold water and mild detergent. Air dry only; do not tumble dry.
- Store cushions indoors during inclement weather or when not in use for extended periods to prevent fading and mildew.
- Spot clean minor spills immediately with a damp cloth.

## 6.3 Canopy Care

- Clean the canopy fabric with a soft brush or cloth, mild soap, and water. Rinse thoroughly.
- Ensure the canopy is completely dry before retracting it for storage to prevent mildew.
- Retract the canopy during strong winds or heavy rain to prevent damage to the fabric and frame.
