3. PRODUCT OVERVIEW

The Mini Body Camera 850-FA features a compact design with a 360-degree rotatable clip and magnetic attachment for versatile placement. It records in HD 1080P at 30fps and includes a built-in 128GB memory card with loop recording. Night vision is supported by 4 high-intensity infrared LEDs.

Key Features:

- **HD 1080P Video Recording:** Captures clear and fluent videos at 30 frames per second.
- **90-Degree Lens:** Provides a broad field of view.
- **Night Vision:** Equipped with 4 IR LEDs, offering visibility up to 15 feet in complete darkness.
- **Built-in 128GB Memory:** Eliminates the need for additional memory cards, storing approximately 12.6 hours of video.
- **Loop Recording:** Automatically overwrites the oldest files when the memory is full, ensuring continuous recording.
- **Long Battery Life:** 800mAh rechargeable battery provides about 4 hours of recording or up to 6 hours of standby time. Can record while charging.
- **One-Button Operation:** Simple controls for power, recording, and night vision.
- **360-Degree Rotatable Clip & Magnetic Lanyard:** Allows for flexible mounting on clothing, bikes, or other surfaces.

4. SETUP

4.1 Charging the Camera

Before first use, fully charge the camera. Connect the camera to a USB power source (e.g., computer, wall adapter) using the provided USB cable. The charging indicator light will show the charging status. A full charge takes approximately 3.5 hours.

4.2 Memory Card

The camera comes with a built-in 128GB TF card. No additional memory card purchase is required. The camera supports loop recording, automatically managing storage space.

4.3 Connecting to Phone/Computer

To access recorded files, connect the camera to your phone or computer using the provided USB cable and adapters (Type-C adapter for Android, or a compatible adapter for iOS). For iOS, open the
