## Faber HOOD DAZZLE BLDC FL HC BK 60

# Faber 60 cm 1500 m<sup>3</sup>/hr Autoclean Kitchen Chimney HOOD DAZZLE BLDC FL HC BK 60 User Manual

Model: HOOD DAZZLE BLDC FL HC BK 60 | Brand: Faber

## INTRODUCTION

---

This manual provides essential information for the safe and efficient operation, installation, and maintenance of your Faber 60 cm 1500 m<sup>3</sup>/hr Autoclean Kitchen Chimney, model HOOD DAZZLE BLDC FL HC BK 60. Please read these instructions carefully before using the appliance and retain them for future reference.

## IMPORTANT SAFETY INSTRUCTIONS

- Ensure the chimney is installed by a qualified technician according to local regulations.
- Do not operate the chimney if the power cord is damaged. Contact authorized service personnel for repairs.
- Maintain adequate ventilation in the room when the chimney is in use, especially if other fuel-burning appliances are present.
- Clean the chimney regularly to prevent grease buildup, which can be a fire hazard.
- Do not flambé under the chimney.
- Keep children away from the appliance during operation and cleaning.
- Disconnect the power supply before any cleaning or maintenance.

## SETUP AND INSTALLATION

The Faber HOOD DAZZLE BLDC FL HC BK 60 is a wall-mounted kitchen chimney. Proper installation is crucial for optimal

performance and safety.

## Unpacking and Components

Carefully unpack the chimney and check for any damage. The package should contain:

- 1 x Faber Kitchen Chimney unit
- 1 x User Manual
- Installation hardware (screws, wall plugs, etc. - typically included)

## Mounting

This chimney is designed for wall-mounted installation. Ensure the wall is strong enough to support the appliance's weight (approximately 18 kg). The recommended mounting height above the cooking surface should be followed as per local safety standards and the chimney's specifications to ensure effective suction and safety.

## Electrical Connection

The chimney operates on 230 Volts. Ensure the electrical outlet is properly grounded and meets the required specifications. It is recommended to have a dedicated circuit for the appliance.

## OPERATING INSTRUCTIONS

Your Faber chimney features advanced controls for ease of use, including touch, gesture, and remote control options.

### Control Panel Overview

The control panel is located on the front of the chimney. It includes touch-sensitive buttons for various functions and an LED display.

## Functions

- **Power On/Off:** Use the dedicated power button on the control panel or remote.
- **Suction Speed Adjustment:** Adjust the suction power up to 1500 m<sup>3</sup>/hr using touch controls, gestures, or the remote. Higher speeds are recommended for heavy cooking.
- **LED Lighting:** The chimney is equipped with LED lights to illuminate your cooking area. Activate them via the control panel or remote.
- **Heat Auto Clean:** This feature automatically cleans the internal components by heating and melting grease, which then collects in an oil collector. Refer to the Maintenance section for details.

## Remote Control

The included remote control allows for convenient operation from a distance. It typically includes buttons for power, light, and suction speed adjustment.

## Cooking Simplified

**Gesture, Touch & Remote Control**  
for easy accessibility

## MAINTENANCE AND CLEANING

Regular maintenance ensures the longevity and optimal performance of your Faber chimney. Always disconnect the power supply before cleaning.

### Heat Auto Clean Function

The Heat Auto Clean feature is designed to simplify internal cleaning. When activated, a heating element melts accumulated grease, which then flows into a removable oil collector. It is recommended to run the auto-clean cycle periodically, depending on your cooking frequency.

- To activate, press the dedicated Auto Clean button on the control panel or remote.
- The cycle duration may vary. Do not interrupt the process.
- After the cycle, carefully remove and empty the oil collector. Clean it with warm soapy water.

## Seamless Cooking Experience

**Gesture & Remote Control** for easy accessibility

Image: Illustration depicting the auto-clean technology of the Faber chimney, showing grease being collected in the oil collector.

### Exterior Cleaning

Wipe the exterior surfaces of the chimney with a soft cloth dampened with mild detergent. Avoid abrasive cleaners or scouring pads, as they can damage the matte black finish.

### Filterless Technology

This chimney utilizes filterless technology, reducing the need for frequent filter cleaning or replacement. The internal design and auto-clean function manage grease collection efficiently.

### TROUBLESHOOTING GUIDE

Before contacting customer service, please refer to the following common issues and solutions:

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Chimney does not turn on.	No power supply; loose connection; power outage.	Check power cord connection. Verify power outlet functionality. Check household circuit breaker.
Low suction power.	Oil collector full; obstruction in ducting; incorrect speed setting.	Empty and clean the oil collector. Ensure ducting is clear. Increase suction speed.
Unusual noise during operation.	Loose components; foreign object in fan; motor issue.	Ensure all parts are securely fastened. If noise persists, contact service.
Auto Clean function not working.	Power issue; sensor malfunction.	Ensure power supply is stable. If issue persists, contact service.

If the problem persists after attempting these solutions, please contact Faber customer support.
