6. MAINTENANCE AND CARE

To keep your building block storage box in excellent condition, follow these simple care guidelines:

- **Cleaning:** Wipe the surface with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, followed immediately by a dry cloth. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the product in a cool, dry place away from direct sunlight to prevent material degradation or color fading.
- **Handling:** While durable, avoid dropping the assembled product or applying excessive force, as this may cause pieces to detach.

7. TROUBLESHOOTING

If you encounter any issues during assembly or use, please refer to the following common solutions:

7.1. Common Issues

- **Pieces do not fit together:**

Ensure you are using the correct pieces as indicated in the instruction manual. Micro blocks can be very small, and similar-looking pieces may have subtle differences. Check the orientation of the block; some pieces are designed to connect in a specific direction. Apply gentle, even pressure. If a piece feels forced, re-check the instructions.
- **Difficulty following instructions:**

The instructions are primarily visual. If you find them challenging, try to break down each step into smaller actions. Ensure your blocks are well-sorted, as this makes identifying the correct pieces much easier. Some users find it helpful to watch online videos of similar micro-block assemblies for visual guidance, though specific videos for this product may vary.
- **Assembled structure is unstable:**

This usually indicates that some blocks are not fully connected or are incorrectly placed. Carefully review the sections of the manual corresponding to the unstable area and ensure all connections are firm and flush. Micro blocks rely on precise interlocking for stability.
- **Missing pieces:**

While rare, if you believe you are missing essential pieces, double-check your workspace and packaging. If pieces are genuinely missing, please contact customer support as detailed in the "Warranty and Support" section.
