OPERATING INSTRUCTIONS

Engage with your Mama Surprise Minis Hamster to trigger the surprise baby reveal.

1. **Care for Mama:** Use the included celery toy to "feed" Mama. Watch as her eyes open and close, indicating she is being cared for.
2. **Provide Water:** Ensure the water bottle is attached to the hutch. Observe as the water level appears to decrease, simulating Mama drinking.
3. **Anticipate Babies:** Continue to care for Mama by feeding and providing water. Over time, Mama will reveal 2, 3, or 4 mini babies inside her hutch.
4. **Discover Babies:** Each baby features a unique fur pattern and an adorable pose. Open the hutch to discover how many babies Mama has had.

5. **Repeat Play:** The Mama Surprise Minis Hamster is designed for repetitive play. After discovering the babies, you can reset the toy to experience the surprise again. Refer to the product packaging or online resources for specific reset instructions if needed.

MAINTENANCE

- **Cleaning:** Wipe the toy and accessories with a soft, damp cloth. Do not immerse the toy in water.
- **Storage:** Store the toy and its components in a clean, dry place away from direct sunlight and extreme temperatures when not in use.
- **Nesting Material:** The paper nesting material can be replaced if it becomes soiled or worn.

TROUBLESHOOTING

If you encounter any issues with your Mama Surprise Minis Hamster, please refer to the following common solutions:

- **Mama's Eyes Not Moving:** Ensure the celery toy is properly inserted into Mama's mouth. The toy does not require batteries for this function.

- **Babies Not Appearing:** The appearance of babies is part of the play cycle. Ensure Mama has been "cared for" sufficiently. If the toy has been reset, it may take some interaction before babies are revealed again.
- **Water Level Not Changing:** The water bottle is a simulated feature. The water level will appear to decrease over time as part of the play experience, but the toy does not actually consume water.
