GUY-TECH Max 36W Charger

GUY-TECH Max 36W Charger Instruction Manual

Compatible with EVOO EV-C-116-7PR AC Adapter Power Supply

1. INTRODUCTION

Thank you for choosing the GUY-TECH Max 36W Charger. This AC adapter is designed to provide efficient and reliable power to your compatible devices, specifically the EVOO EV-C-116-7PR. It features advanced protection mechanisms to ensure the safety of your device.

Package Contents

- 1 x GUY-TECH Max 36W AC Adapter Charger

Image 1.1: Front and side view of the GUY-TECH Max 36W Charger, displaying input specifications (100-240VAC, 0.3A, 50/60Hz).

2. SETUP

Follow these simple steps to set up your GUY-TECH Max 36W Charger:

1. **Verify Compatibility:** Ensure your device requires a 36W AC adapter and is compatible with the connector type provided. This charger is specifically designed for the EVOO EV-C-116-7PR.

2. **Connect to Device:** Insert the charger's output plug firmly into the power input port of your EVOO EV-C-116-7PR device.
3. **Connect to Power Outlet:** Plug the charger's AC input prongs into a standard wall power outlet (100V - 240V AC).
4. **Power On:** Once connected, your device should begin charging or receive power.

3. OPERATING INSTRUCTIONS

The GUY-TECH Max 36W Charger is designed for straightforward operation. Once connected, it automatically provides power to your device.

- **Automatic Operation:** The charger will automatically detect the power requirements of your compatible device and deliver the appropriate power output.
- **Worldwide Input:** The charger supports an input voltage range of 100V to 240V, making it suitable for use in various regions worldwide with the appropriate wall adapter (not included).
- **Portability:** Its small and lightweight design makes it convenient for travel and storage.

4. SAFETY INFORMATION

To ensure safe operation and prolong the life of your charger and device, please observe the following safety guidelines:

- **Indoor Use Only:** This charger is intended for indoor use in dry locations. Do not expose it to water, rain, or excessive humidity.
- **Proper Ventilation:** Ensure adequate ventilation around the charger during use. Do not cover it with cloths or place it in enclosed spaces that could restrict airflow.
- **Avoid Extreme Temperatures:** Do not operate the charger in extremely hot or cold environments.
- **Handle with Care:** Avoid dropping or subjecting the charger to strong impacts.
- **Disconnect When Not in Use:** Unplug the charger from the wall outlet when not in use for extended periods.
- **Protection Features:** The charger includes built-in Over Voltage Protection, Over Current Protection, Short Circuit Protection, and Over Heat Protection to safeguard your device.
- **Children and Pets:** Keep the charger out of reach of children and pets.

5. MAINTENANCE

The GUY-TECH Max 36W Charger requires minimal maintenance:

- **Cleaning:** Disconnect the charger from the power outlet and your device before cleaning. Use a soft, dry cloth to wipe the exterior. Do not use liquid cleaners or solvents.
- **Storage:** Store the charger in a cool, dry place when not in use. Avoid wrapping the cable too tightly around the adapter to prevent damage.
- **Cable Inspection:** Periodically inspect the power cord and connector for any signs of damage, such as fraying or exposed wires. If damage is found, discontinue use and replace the charger.

6. TROUBLESHOOTING

If you encounter issues with your GUY-TECH Max 36W Charger, please refer to the following common solutions:

- **Device Not Charging:**
 - Ensure the charger is securely plugged into both the wall outlet and your device.
 - Verify that the wall outlet is functional by testing it with another device.
 - Confirm that the charger is the correct adapter for your EVOO EV-C-116-7PR device. Incorrect adapters may not provide power or could damage your device.
- **Charger Feels Hot:**
 - It is normal for the charger to feel warm during operation. However, if it becomes excessively hot, disconnect it immediately.
 - Ensure there is adequate ventilation around the charger and it is not covered.
 - Avoid using the charger in direct sunlight or confined spaces.
- **Intermittent Charging:**
 - Check the connection points for any looseness or debris.
 - Inspect the cable for any visible damage.

If these steps do not resolve the issue, please contact GUY-TECH customer support for further assistance.

7. SPECIFICATIONS

Input Voltage	100V - 240V AC (Worldwide)
Input Current	0.3A
Frequency	50/60Hz
Output Power	Max 36W
Connector Type	Plug (Specific to EVOO EV-C-116-7PR)
Compatible Devices	EVOO EV-C-116-7PR
Special Features	Hand Size, Powered, High Power Exchange Efficiency
Color	Black
Material	Metal, Plastic
Power Source	Corded Electric
Protections	Over Voltage, Over Current, Short Circuit, Over Heat
